The Environmental Health Branch (EHB) provided staff that fulfilled key positions in the Incident Command Structure at the Covid Command Center. All of these staff were willing to leave their current EHB assignments or, in some cases, continue to cover their EHB assignments, and work at the COVID command. Many of these employees worked very long hours which included the weekends. These employees were stretched outside of their normal duties and comfort zones and helped flatten the curve and improve the lives of all San Franciscans.

Patrick Fosdahl (Fozdoll), Director of the Environmental Health Branch, will now read the names of the team members and make a few comments.
