This team has been activated for the DPH/City’s COVID-19 response since day one, January 21<sup>st</sup>, 2020. They have all held key positions within the activation, and continue to be activated, while maintaining the ability to assist with responses to other multi-hazard public health emergencies. This team provided the foundation for the DPH response back at the beginning of 2020, and has provided valuable resources throughout this lengthy response. They have worked long, countless hours and have sacrificed much of their lives the past year and half. It is a small but mighty team, that has done a lot of good for the people of San Francisco.
