A = Salary Variance Baseline and Target are on a Fiscal Year (FY) not Calendar Year (CY); COVID-19-related labor costs have not yet been separated out of our operating fund leading to an inflated salary variance. COVID operations and COVID sick time account for approximately \$12,000,000 in labor expenses

B= Black/African American Heart Failure Readmissions outcome metric is in coordination with DPH/SFHN, clinical experts and readmissions task force

C= General Fund values are not cumulative, but a projected estimate of GF fund spend through the end of the fiscal year based on actual revenues and expenditures at the end of each quarter D= Likelihood to Recommend Hospital to Friends & Family sample size from April to June has significantly decreased (April = 68 responses; May = 14 responses; June = 4 responses)

E= Patient Safety Composite Harm events YTD reset on Fiscal Year
