COVID+ Cases per 100,000 Population (7-day Average)

\*\*Data are limited to specimens collected at least two days prior to today's report date AND resulted at least one day prior to today's report date. Result date is used in place of specimen collection date if specimen collection date is missing.

# Hospitalizations

Hospitalizations: 102 individuals on 12/1/22, includes 9 in ICU

# Vaccine & Booster Administration

San Franciscan residents' COVID-19 vaccine status by age group

Age Group	Resident Population	Completed Series	% of Population Completed Series	First Booster Recipients	% of Population First Boosted	Second Booster Recipients	% of Population Second Boosted	Bivalent Boosted Recipients	% of Population Bivalent Boosted
0-4	39,650	9,389	24%	0	0%	0	0%	0	0%
5-11	44,006	34,560	79%	14,231	32%	0	0%	8,216	19%
12-17	33,938	36,792	>99%	22,936	68%	489	1%	9,475	28%
18-64	622,166	540,110	87%	409,388	66%	75,332	12%	202,313	33%
65-74	74,120	76,867	>99%	68,590	93%	42,456	57%	43,914	59%
75+	60,907	53,323	88%	48,538	80%	32,794	54%	33,208	55%
<b>Total</b>	<b>874,787</b>	<b>751,041</b>	<b>86%</b>	<b>563,683</b>	<b>64%</b>	<b>151,071</b>	<b>17%</b>	<b>297,126</b>	<b>34%</b>

# Summary

- SF COVID case rates remain high.
  - DPH continues to focus efforts and messaging on improving vaccination/booster rates. This is the best way for individuals to protect themselves from the health impacts of COVID.
- Available surveillance data suggest that RSV and flu have peaked in San Francisco, but we continue to monitor closely in collaboration with SF hospitals and health systems as well as CDPH.
- The holidays are over, but you can still protect yourself and others this winter:
  - Get your bivalent COVID booster if you haven't yet
  - Get your flu shot ([sf.gov/flu-vaccines](https://sf.gov/flu-vaccines))
  - Protect others—stay home when you're feeling sick
  - Practice good hygiene: wash hands, cover coughs and sneezes, and avoid touching your eyes, nose and mouth (flu can spread on surfaces or on your skin)
  - Know how to reach a doctor. If you're not feeling well, they can discuss your symptoms and treatment options.
  - Keep a well-fitted mask on hand for crowded, indoor spaces (N95, KN95 or KF944 are best)
  - Keep a supply of rapid test kits on hand. You can once again receive free test kits through the US mail by visiting [www.covid.gov/tests](https://www.covid.gov/tests)
  - If possible, increase air ventilation or air filtration when indoors or gather outdoors.
- DPH is working with the State to plan for the end of the CA State of Emergency in Feb. 2023
