Election Numbers of Interest

Related to election observation and future planning, below are some election numbers I think would be useful for the Commission to have access to when reviewing future elections. Some of these I mentioned verbally at the May meeting, so I'm writing them down here for convenience and future reference.

The first set of numbers relate to understanding how and what methods people are using to vote, and the second set of numbers relate to remakes.

How People are Voting

Vote-by-mail (VBM)

Of the VBM voters—

- How many submitted / sent their vote-by-mail ballot—
 - By mail (US postal service)
 - By drop box
 - By voting at a Voting Center (e.g. City Hall)
 - By dropping off at a polling place on Election Day
 - Are there any other categories of VBM return not listed above?
- How many submitted a ballot from the Accessible Vote-by-Mail (AVBM) System?

Ballot-marking Device (BMD)

Of the voters that used one of the Department's BMD's, how many used it—

- At a polling place on Election Day
- At a Voting Center (e.g. City Hall)
- During emergency voting (e.g. hospitalized or homebound voters)
- Are there any other BMD categories not listed above?

Miscellaneous (emergency and fax)

- How many used emergency voting (e.g. hospitalized or homebound voters)?
- How many sent their ballot by fax (e.g. Military and Overseas Voters)?

Ballot Remakes

- How many voters had one or more of their ballot cards remade?
- How many ballot cards were remade in all?
- How many cards were remade due to the ballot being damaged in some way?
