# DCYF & JPD Planning Processes

- **Close Juvenile Hall Working Group (2019):** San Francisco Board of Supervisors voted to close down Juvenile Hall and created taskforce to propose alternatives to the traditional facility.
- **DJJ Realignment Subcommittee (2021):** As mandated by SB 823, which closed the Division of Juvenile Justice (DJJ), this subcommittee of the Juvenile Justice Coordinating Council developed San Francisco's DJJ Realignment Plan for providing care to youth who would have previously been committed to state youth prison. This public process included city agencies, community organizations, formerly juvenile justice involved adults, and members of the public.

# DCYF & JPD Planning Processes Continued

- **Community Needs Assessment (2022):** First phase of DCYF planning cycle that deeply engages children, youth, TAY/A, and their families to understand their current strengths and challenges while ensuring that their voices are represented throughout the planning process.
- **Services Allocation Plan (2023):** Second phase of the DCYF planning cycle that articulated DCYF's strategic plan for addressing the needs and disparities highlighted in the CNA; describes the service areas and partnerships we intend to support and allocates resources to them.
