Artist Biography (Please provide a short biography about yourself and your craft)

Started in 1998 with drawings and then by 2000s I started making spoons and have been working every since. I stopped during the pandemic and then 2022 I started selling again, but not many people were buying. Now I sell one day a week, but need to re screen into the program.

1. Describe the items you plan to sell and how each type of item is made. Please be as detailed as possible Example I plan to sell digital photographic prints of artwork that I designed in Illustrator and printed on cardstock using a home printer.

I get a spoon, and then I cut it and I use a handsaw to cut it halfway. I use a piece of wood to hammer the metal into round shape. I use prongs to add glass or other decoration and make sure it is not rough. The rings are also made from the spoons. For the wood etching. I get a peice of wood I like, I sketch the image for two hours. The use the wood buring tool to trace the sketch into the wood.

2. Where did you learn your craft? Did you take a class or learn on your own?

I took a metal arts class, I only went for two weeks beause I could not afford the supplies, but I learned how to soder and I used spoons instead of gold. I learned wood etching in 3rd grade as a kid. Using the sun to burn drawings at first.

Please provide up to two (2) images of your craft in process The images should include you demonstrating your process. See an example here
