Hello, My background is in design and photography. Since, 2018 I have been photographing San Francisco's wild parrots. In 2023, I compiled my photography collection of the parrots and published a coffee table book called " San Francisco Wild Parrots. Since then, I've designed sixty posters, prints and cards. The collection captures the birds in an up close and personal way. The book also highlights the Fort Mason area where my group of parrots reside during the day. It also has images of their natural surroundings including flowers from the community gardens in Fort Mason. On a daily basis I continue photographing the birds, landscape and flowers throughout the year.
