My art explores the creation of "Meaning" in life using iconic symbols and our reactions to them, and includes our attraction to colors and shapes in nature.

I sell hand made and painted laser cut wood and stone earrings that often contain photographic inserts utilizing my own digital photography. I also sell hand carved and polished stone pendants that I fabricate with lapidary tools, using stones found by me while rockhounding in the southwestern US.

I am a graphic designer and lifelong artist and maker. I also study lapidary arts at The San Francisco Gem and Mineral Society.
