

Treasure Island Connects EPA Community Change Grant

EPA Community Change Grant

- CCG is designed to help equity priority communities tackle environmental and climate justice challenges
- \$20 million awarded to TIMMA with One Treasure Island as lead partner
 - Grant is obligated
 - No local match required
- 3-year grant period, January 2025 through December 2027
- Approximately \$2B available - EPA has selected 105 applications out of 2,700 received

U.S. Environmental
Protection Agency

Treasure Island Connects

- Delivers recommended actions from the Treasure Island Supplemental Transportation Study
- STS purpose was to identify near-term improvements and supplemental transportation options
- Priority recommendations included a Community Ambassador Program, improved Muni service, and a microtransit service
- Scope includes projects aligned with EPA's mission and goals

Treasure Island Supplemental Transportation Study

Component Projects

- Microtransit pilot to San Francisco
 - Connects residents to key destinations such as UCSF
 - Modeled on SFMTA's Bayview shuttle pilot project
- Free, on-demand on-island shuttle
- Enhanced Muni service and additional Battery Electric Bus
- Electric ferry charging infrastructure
- Expansion of Bay Wheels bikeshare system to TI
- Transportation Resource Center, launched and operated by One TI with TIDA support

Looking Ahead

- Project set up including subaward agreements with One TI, SFMTA, WETA
- Initial round of public outreach to inform service parameters for microtransit and on-island shuttle
- Procurement of operators / service providers
- Target service launch in 12-18 months
