Dear Kara Zordel:

Thank you for your timely response to our monitoring report letter. In your letter, you described actions your organization has adopted and implemented to address the concerns raised in the monitoring report letter. Below is a summary of the findings listed in the monitoring report letter, corrective action/taken/planned, and the status of each finding as of the close of this monitoring season.

Category	Standard	Action Taken / Planned	Status
5.m Audited Financial Statements	In current audit, agency has at least 30 days of operating cash.	Community forward reported taking drastic measures to raise funds from non-governmental sources in order to meet the city standard of at least 30 days of operating cash. According to the non-profit, they were unable to meet the standard due to the late payments coming from San Francisco Department of Public Health which is the biggest funder to this agency.	Not Yet In Conformance. Monitors will check this item in next year's monitoring to ensure compliance.

Standards will be reviewed in next year's monitoring cycle. Per the City's corrective action policy, certain findings repeated in two consecutive years may result in your organization being placed on Elevated Concern status. General nonresponsiveness, including failure to implement or to show reasonable progress toward implementation of an approved plan by the established deadline, may also result in being placed on Elevated Concern status.

For more information on Elevated Concern status, as well as the standard monitoring and corrective action process, please review the attached Corrective Action Policy.

Please contact me via email at mohamed.rahali@sfdph.org should you have any questions.

Sincerely,

Mohamed Ezzaoui Rahali
