Re: request for Reconsideration : Ballot Measure - Voter Approval for Waterfront Height Increases

Chair Betty Packard & Members of the Ballot Simplification Committee

Dear Chairman Packard and Committee Members:

I support substitution of "**waterfront**" for Port property as suggested by Jon Golinger in his letter to you earlier today. "Port property" is a verbal disguise which will only mislead San Francisco voters.

Two documents on my desk include the Report on the Special Area Plan for the San Francisco **Waterfront** (BCDC San Francisco **Waterfront** Advisory Committee, December 1974) and Northeastern **Waterfront** Survey Technical Report, July 1979. (Emphasis added.) I have participated in the generation of the Special Area Plan and other plans since 1974.

Thank you for your important work on the Approved Digest.

Rebecca Evans

Proponent of the Waterfront Height Limit Increase ballot measure

Former Chair of the Rincon - South Beach Advisory Committee (under the San Francisco Redevelopment Agency)

& various other civic hats over the past 40 years.
