Subject: Ballot Simplification Committee

Other: MUNI INFRASTRUCTURE IMPROVEMENT BOND---ERRORS

Comments: BALLOT SIMPLIFICATION COMMITTEE MEETING 7-28-14 MUNI

INFRASTRUCTURE IMPROVEMENT BOND---ERRORS RE: Draft "Ballot Simplification" Language 1. The draft language does not accurately reflect the legal language of the Ordinance, File No. 140509, Amended 6/18/14. The Ordinance makes no definitive commitment to any specific work. Under Section 3. PROPOSED PROGRAM: "Projects to be funded under the proposed Bond MAY include but are not limited to the following:" Than, for eight possible project descriptions, all eight say: "A portion of the Bond MAY be allocated to..." 2. In other words, most of the funds could go to cover cost overruns for the Central Subway. 3. Moreover, the Transit Effectiveness Project (TPS) is inaccurately described. The TPS cuts Muni service in neighborhoods in favor of rapid corridors. Muni service cuts since 2009 were part of TPS Plans---route eliminations, shortened bus lines etc. The next phase of TPS and the Bond does not restore past cutbacks---a net decrease in transit service. For any questions, feel free to contact us. Regards, Howard Wong, AIA SaveMuni
