Hello Barbara-

Thank you so much for working with our office on a clear and concise ballot statement for the police oversight charter amendment. The approved version is very good. There is one final change that Supervisor Cohen would like to include that will be important for the voters to understand. On the description in "the way it is now" we believe that is important to include a brief qualifying statement about the police commission as its function is not widely understood. I am providing a suggested change below it is italicized and underlined:

The Way It Is Now: The City has an Office of Citizen Complaints (OCC) overseen by the City's Police Commission -the civilian oversight body of the Police Department. The OCC investigates complaints of misconduct and neglect of duty by police officers, and may file disciplinary charges against officers.
