

Overview

As noted in the May 2020 update to the Five-year Financial Plan, the City is facing a General Fund deficit of \$1.5 billion over the next two years. To balance the FY 2020-21 and FY 2021-22 budget, all departments are required to submit plans to reduce General Fund support, compared to the FY 2020-21 base budget, by an equivalent of 10% of adjusted General Fund support in FY 2020-21, growing to 15% in FY 2021-22. An additional 5% in FY 2020-21 is required to serve as a contingency, should fiscal conditions worsen.

Please fill out the following summary forms 1A, 1B, and 1C to lay out your proposal to meet your department's mandatory reduction and provide a clear, written description of resulting service and staffing impacts. Please also provide loadsheets in forms 2-4 to technically implement all changes required in the budget system that reflect the department's proposal. Form 1D is optional, but can be used by departments as a framework to discuss necessary core services and operations changes in response to the ongoing health crisis. (All budget impacts of these proposals should also be included in the summary form 1A.)

These General Fund mandated reduction plans are due to the Mayor's budget office by no later than **June 12, 2020 at 5pm**.

Guidelines for proposals:

1. Mandatory Reduction Requirements

When developing reduction plans, please prioritize solutions that maintain core functions - even if at reduced service levels. Consider:

- Contract savings: reduce or cancel underperforming contracts, services that do not conform to physical distancing, or those supporting non-essential activities
- For necessary contracts, consider re-bidding at reduced rates
- Reduction of personnel costs, including elimination of vacant positions, attrition savings, or project suspensions
- Streamlining operations and consolidation
- New revenue options (being mindful of CY GF impact)

*Note: Do not submit changes to your department's Pay-Go capital or COIT allocations in the FY20-21 or FY21-22 budget. Nishad Joshi from ADM's Capital Planning team and Matthias Jaime from COIT will reach out to departments to discuss their original capital submissions in light of CY rebalancing needs and newly constrained resources.

2. Future Planning & Re-opening Considerations

Within the mandatory reduction requirements, departments should consider budget changes that are based on the following re-opening considerations:

- Identify core services - critical government functions
- Incorporate public health guidance in plans for re-opening operations
- Equity principles and considerations need to guide any service changes to ensure people can still access needed services in a safe manner
- Workforce: work from home & in-person services (how will physical space and supply needs change for work that must continue in person and work that can happen remotely?)
- Required public services: in-person & online considerations (what services can be moved online and/or should be delivered differently?)

Narrative - Programs and Services Impacted in FY 20-21 & FY 21-22

What are the core operations the department is planning to continue in FY 20-21? How will those operations be adjusted given both public health guidelines and budgetary reduction requirements?	The Department is continuing its core business operations in reviewing, investigating, charging and prosecuting all criminal violations of law within the City and County of San Francisco. The Department is continuing to do so by seeking to reduce mass incarceration while still holding offenders of the law accountable by providing alternatives to incarceration. The Department is also continuing to support all victims of crime within the City and County.
What programs, projects, and services are you proposing to change, reduce, suspend, or cancel for FY 20-21 and FY 21-22? How are these changes reflected in this proposal?	The Department is not proposing to change, reduce, suspend or cancel any programs for the FY 20-21 and FY 21-22. The Department has carefully crafted reductions that would not have a significant impact to services or programming provided in the budget year.
What are the impacts for the department, staffing levels, public services, and residents of these reductions? Do any of the proposed budget reductions directly support vulnerable populations?	The proposed reductions are aimed at providing the least impact to victims of crime or residents of the City and County of San Francisco. Reductions in staffing through increased attrition savings, reductions in inter-campus shuttle services, reductions in fleet parking costs and reductions to interdepartment services for a facility being vacated are the proposed reductions. Reductions beyond this would lead to service impacts to our core business.
What ideas do you have about achieving citywide savings that might be applicable to other departments or require coordination? Are you proposing any reductions to discretionary work orders (IDS) - have you communicated and reached agreement with the other department?	During this pandemic and prior, this administration is committed to the reduction in the over reliance in incarceration. All meaningful measures taken to reduce jail populations will have a significant impact across the criminal justice system. There are a few discretionary work order changes that have been communicated to the other Departments.

Work Order Changes - If any departmental IDS changes are proposed within the mandatory reductions described in Form 1A, please highlight below
