

**Contractor Attestation Affirming Compliance with San Francisco’s Covid-19 Contractor Vaccination Policy**

**Attachment A: Identification of Covered Employees Granted Exemptions**

City Department: \_\_\_\_\_

Contractor (Company name): \_\_\_\_\_

Contract name/number: \_\_\_\_\_

Under the Contractor Vaccination Policy, a Contractor or Subcontractor on a Covered Contract may grant an exemption from the vaccination requirement to a Covered Employee for Qualifying Medical Reasons or Religious Beliefs. If the Contractor or Subcontractor grants such exemptions, the City department must determine whether the exempt Covered Employees can be reasonably accommodated with appropriate safety precautions consistent with those the City affords to City employees in the work setting. The Department may request a meeting with Contractor to seek additional information to determine whether the employee(s) identified below can be safely accommodated. The Contractor or Subcontractor may not allow the Covered Employees to work at the work setting until the City has made a determination.

Identify below Covered Employees, if any, for whom Contractor or Subcontract has granted an exemption:

Employer (name of contractor or sub)	Employee’s title	Employee’s job duties	Employee’s work location
