

ZSFG CHIEF OF STAFF REPORT
Presented to the JCC-ZSFG on April 26, 2022
April 2022 MEC Meeting

I. New Editor-in-Chief of JAMA and JAMA Network™

Kirsten Bibbins-Domingo M.D., Ph.D., M.A.S, a member of the ZSFG Medical Staff, Medicine Service, has been appointed as the next editor-in-chief of the *Journal of the American Medical Association (JAMA)* and JAMA Network™ by the American Medical Association (AMA). She will begin her tenure on July 1, 2022.

Dr. Bibbins-Domingo is Professor and Chair of the Department of Epidemiology and Biostatistics and the Lee Goldman, MD Endowed Professor of Medicine. She is the inaugural Vice Dean for Population Health and Health Equity in the UCSF School of Medicine. Also, Dr. Bibbins-Domingo co-founded the UCSF Center for Vulnerable Populations at ZSFG.

II. Kaizen Promotion Office (KPO) Physician Fellowship

The profiles and projects of the three recipients of the KPO Physician Fellowship are noted below. In addition, all fellows adopted a Personal Development Plan A3 to develop leadership skills.

A. Anna Chodos, M.D., M.P.H.

Dr. Anna Chodos is a member of the Division of General Medicine at ZSFG and the Division of Geriatrics at UCSF. Moreover, she is the Director of Whole Person Geriatrics for SFHN and the Medical Director of Geriatrics Outpatient Consultative Services. Effective April 2022, Dr. Chodos will be the Principal Investigator of Dementia Aware, a 2-year statewide program funded by the Department of Health Care Services to improve dementia assessment and care planning for Medi-Cal patients in primary care.

For her fellowship, Dr. Chodos has focused on (1) learning about ZSFG's data systems and opportunities to build a data-driven Age-Friendly Health System for ambulatory services and (2) developing her skills as a physician leader.

B. Christopher Peabody, M.D., M.P.H.

Dr. Toff Peabody is a member of the Department of Emergency Medicine. He is the Director of UCSF Acute Care Innovation Center and the Director of Quality and Performance Improvement at ZSFG Emergency Department. Furthermore, Dr. Peabody serves as a UCSF School of Medicine Bridges Coach and as a Board Advisor for the UCSF Health Hub.

Dr. Peabody used his KPO fellowship to establish improved access to performance improvement tools for all ED staff and clinicians and lead a team to develop the ED Equity and Operational Dashboard. Both tools can be easily replicated in other domains.

C. Lucas Zier, M.D., M.P.H.

Dr. Lucas Zier is an interventional cardiologist and pulmonary hypertension specialist at ZSFG. He leads the complex coronary and structural heart disease programs. Dr. Zier is also the Associate Program Director of the Cardiovascular Disease Fellowship Program and the Cardiovascular Performance Improvement Lead at ZSFG.

The project of Dr. Zeir focuses on advancing health equity by aligning predictive analytical efforts in EPIC with cardiovascular PI initiatives and organizational priorities at ZSFG. Dr. Zeir's primary project utilizes complex EMR (Electronic Medical Record) data, including SDOH (Social Determinants of Health) information, to better predict heart failure outcomes in ZSFG population through machine learning. The outputs of these machine learning algorithms not only provide clinicians with highly accurate information but also drive point of care treatment recommendations in the EMR, linking patients to resources aimed specifically at addressing adverse SDOH.
