Re: Transport Ambulance Staffing for Special Events

Recently, the San Francisco EMS Agency has noticed several special events promoters have had difficulty in securing ALS ambulance assets for their medical plan submission. Please ensure you contact and confirm ambulance transportation assets at a minimum of 90 days prior to an event from a San Francisco Permitted Ambulance Provider. Please do not assume an Ambulance Provider you have utilized in previous years has available assets for your event.

The EMS Agency is compiling an updated list of contact information for Permitted San Francisco Ambulance Providers and Event Medical Providers (non-transport) based on previous plan submission to assist event promoters in obtaining medical assets. If you would like to be included on this list, please email EMSMedicalPlans@sfdph.org.

Should you have any additional questions, please contact me at the EMS Agency at 415-487-5018.
