SAN FRANCISCO ADULT PROBATION DEPARTMENT

Reentry Care & Treatment Network

RCTN Framework - 50 Reentry Programs Funded by the San Francisco Adult Probation Department

The San Francisco Adult Probation Department values the individuality and diversity of justice involved adults, recognize the unique challenges they face, and invest in their success through services designed to help them permanently exit the justice system. Our reentry and rehabilitative services complement our supervision strategies by providing a unique blend of opportunity and accountability. We extend a continuum of integrated services through our Reentry Care and Treatment Network (RCTN) to address our clients' criminogenic needs and empower them to become productive members of the community.

Our portfolio of services is designed to address the dynamic risk factors proven through research to affect recidivism. The innovative and symbiotic nature of our reentry services ensure a holistic approach to rebuilding lives and promotes the clinical, cultural, and community needs of those we serve. Our clients have traditionally been failed by numerous public systems, in response, we developed programs and systems that are interdependent as a means to improve outcomes, reduce recidivism, and restore the community.

Our role is to provide comprehensive services that address both the criminogenic needs and community functioning factors of our clients. Our goal is not to simply "house" our clients, but to provide comprehensive services that help them rebuild their lives. Without the required supportive services, our housing programs would not be successful. Through our RCTN we are able to advance our mission to "Protect and Serve the Community, Further Justice, Inspire Change, and Prioritize Racial Equity so that all People May Thrive."

The San Francisco Adult Probation Department (SFAPD) achieves excellence in community corrections, public safety and public service through the integration of Evidence Based Practices and a victim centered approach to our supervision strategies. We collaborate with City and community partners to provide a unique blend of opportunity and accountability. We are leaders in our profession, exemplifying the highest standards. We extend a continuum of integrated services to address our clients' criminogenic needs and empowers them to become productive members of the community.

With the help of the San Francisco community, together we have been able to create an adult probation department that leads our state in innovative and progressive strategies that help people rebuild their lives and ensure the safety of all people in our community. The work we do is helping to move the state and nation away from the the 'tough on crime' narrative. Locking people up in prison is not the answer; and this often disproportionately impacts people of color. We have successfully demonstrated that we can safely support individuals in the community without relying on incarceration. We will continue this work and hope that together we can create a more fair and just system for all Californians.

Thank you for all you do to strengthen the community safety network for people exiting jails and prisons. This catalog is a representation of SFAPD's reentry services investments in the community, and an illustration of some of our key community partners.
