This is especially true for girls and non-Black youth, who account for a smaller percentage of the Juvenile Hall population than boys and Black youth. To help account for this, both means and medians are provided.*

## Trends

In October 2021:

- The median length of stay for girls was shorter than boys for youth released (4 days versus 20 days) and for youth in custody (95 days versus 117 days).
- The median length of stay was slightly longer for Black youth than for non-Black youth for youth released (18 days versus 13 days) and much shorter for youth in custody (89 days versus 130 days).
