40013-22/23	Assessor/Recorder	\$500,000	The Office of the Assessor-Recorder (ASR) has an existing contract to host approximately 15.1 million pages of documents that were recorded between 1906 and 1999. It is the portal through which members of the public can view and request copies of these archived records. In 2021, the California Legislature approved Assembly Bill 1466 (AB1466) which requires all California Counties to redact from deeds and other property documents any language that is discriminatory or racially restrictive. To achieve this legislated mandate, ASR would like to enter into a new professional services contract to upgrade the existing software, enable search capability for this restrictive language, and subsequently redact inappropriate content. The estimated contract value is \$280,000 but may increase up to \$500,000 during contract negotiations; the initial contract term is four (4) years with two (2) one-year options to extend for one year each. As part of this software upgrade, historical records will be searched using optical character recognition (OCR) technology to identify unlawfully Restrictive Covenants. Once identified, contractor will perform a manual review of each suspected Restricted Covenant for accuracy and will manually data enter key document details and page locations within the recorded document where terms were found. Once identified, contractor will route the documents through a secure AB-1466 website which can be accessed by both ASR and the City Attorney for further processing. The City Attorney's Office will review and approve the proposed changes in the software, and ASR will re-record the original document with the illegal language redacted. Furthermore, this system upgrade would allow ASR to meet the reporting requirement which is required by the legislation.	Regular	12/31/2028
