Re: COVID-19 Testing at Juvenile Hall Lobby

The Juvenile Probation Department has partnered with the California Department of Public Health to offer COVID-19 testing in the Juvenile Hall Lobby. This testing is through Primary Health and begins on Monday, October 4, 2021.

In preparation for our go-live date, please click on this link:

<https://my.primary.health/l/sfjuvenileprobation> or you can use your cellular telephone using the attached PDF flyer. You only need to register once and each time you test, it will take no longer than 5 minutes.

Here is some basic information about the testing program:

- Testing is required if you wish to enter Juvenile Hall. Testing is optional for staff members who work with the general public at 375 Woodside Ave.
- This program has two different types of testing: BinaxNOW (rapid antigen tests with results in under 30-minutes) and PCR tests (results in 48-72 hours). For the immediate future, we will be using BinaxNOW at the Juvenile Hall Lobby.
- Pre-registration is recommended and collects necessary information and consent.
PLEASE DO NOT REPORT INSURANCE INFORMATION. LEAVE THIS AREA BLANK AND CONTINUE WITH THE REGISTRATION PROCESS.

- All questions included in registration are required for California State public health reporting. Please note this program is free for all participants.
- Information and test results are only shared with the testing site, lab partners, and local/state health departments. It is not used for any other purposes.
- All results are shared electronically with the contact information provided during registration. **PLEASE INCLUDE YOUR CELLULAR TELEPHONE NUMBER AND EMAIL FOR NOTIFICATIONS.**

We'll be testing daily beginning at 6:30am on October 4, 2021. This is subject to change with advanced notification to improve workflow and testing efficiency.

If you need assistance with registration or have questions about the CA Rapid Antigen Testing Program, you can contact a call center representative Monday through Friday from 8:00am to 5:00pm at (650) 275-5419.

Thank you for helping us stay safe and prevent outbreaks!
