Project Description

The San Francisco Municipal Transportation Agency (SFMTA) proposes to establish a citywide Slow Streets Program for selected streets to create a network of residential streets that would prioritize biking, walking, and other forms of active transportation by enhancing the safety and protection of persons who use these Slow Streets. The Slow Streets Program team would conduct a design and public hearing process to determine specific design treatments that would limit traffic volumes and speeds on each Slow Street corridor and allow the corridors to be safely used by people traveling by foot, bicycle, and other forms of active transportation. The SFMTA has defined a Slow Streets Toolkit of design treatments to achieve the desired traffic volumes and speeds.

Determination

The City and County of San Francisco decided to carry out or approve the project on December 6, 2022, when the SFMTA Board of Directors approved the project. The project was officially approved on January 6, 2023, when no appeal of the statutory exemption was filed during the 30-day appeal period. A copy of the documents may be examined at the Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103 in file no. 2022-008095ENV.
