TRANSBAY JOINT POWERS AUTHORITY

To: County Clerk, City and County of San Francisco
City Hall Room 168
1 Dr. Carlton B. Goodlett Place
San Francisco, CA 94102

RE: Notice of Determination, Transbay Joint Powers Authority
Addendum to the 2018 Final SEIS/EIR for the Transbay Program
(State Clearinghouse Number 95063004)

Pursuant to the California Environmental Quality Act (CEQA) and the State CEQA Guidelines adopted by the Secretary for Resources, this Notice of Determination is transmitted to you for filing. At the end of the posting period, please return this Notice to the Transbay Joint Powers Authority (TJPA) Contact with a notation of the period it was posted.

Project Description and Location: The approved project consists of refinements to the previously approved Downtown Rail Extension (DTX) that was evaluated in a 2004 Final EIS/EIR, as amended by six addenda adopted between 2006 and 2011, and a 2018 Final Supplemental EIS/EIR ("2018 Final SEIS/EIR"). The project is located in the City and County of San Francisco.

This Notice of Determination is for an Addendum to the 2018 Final SEIS/EIR. The DTX will extend rail service 1.3 miles underground from the current northern Caltrain terminus at Fourth and King Streets into the Salesforce Transit Center and will also provide a northern terminus for future high-speed trains in downtown San Francisco. The refinements to the DTX involve the following:

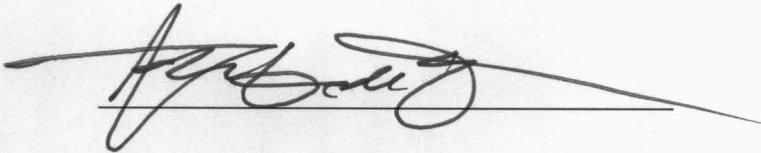

- Defer the BART/Muni underground pedestrian connector
- Reduce the size of the below-grade Transit Center train box extension and relocate the vent structure and emergency exit
- Defer the intercity bus facility and construct a new entrance/exit pavilion from the street level to the station below which had been included as part of the intercity bus facility
- Remove the taxi staging area at the intercity bus facility
- Reduce the number of tracks for train operations in a portion of the tunnel from three to two tracks
- Modify the Fourth and Townsend Street Station design
- Realign the tunnel stub box
- Reconfigure the at-grade trackwork south of the Caltrain railyard to include an additional track within the Caltrain right-of-way at the existing at-grade crossing of Mission Bay Drive and to eliminate the previously approved turnback track from the at-grade crossing of 16th Street to Mariposa Street
- Modifications to mitigation measures and an improvement measure previously adopted and incorporated into the Transbay Program

POSTED
 JAN 18 2023
 TO

Determination: The Addendum concludes that the project refinements would not result in new significant impacts or a substantial increase in the severity of significant impacts previously identified in the 2018 Final SEIS/EIR. No changes to the Findings and Statement of Overriding Considerations for the project analyzed in the 2018 FSEIR are required as a result of the project refinements evaluated in the Addendum. The mitigation measures that were adopted and incorporated into the original Transbay Program that was approved in 2004 and revised in 2018 remain in effect. Revisions to three mitigation measures and one improvement measure were made as part of the project refinements. A revised mitigation monitoring and reporting program, incorporating these revisions, was adopted as part of approval of the project refinements.

The Transbay Joint Powers Authority (TJPA), by TJPA Board Resolution No. 23-007, approved the project described and evaluated in the Addendum to the Final SEIS/EIR on January 12, 2023. A copy of the Addendum to the Final SEIS/EIR and the Final SEIS/EIR are available for examination at the TJPA office at 425 Mission Street, Suite 250, San Francisco, CA 94105.
