SB 932 (Portantino): General plans: circulation element: bicycle and pedestrian plans and traffic calming plans  
***Recommended Position: Oppose***

This bill requires that the next update of the Transportation Element of the General Plan include bicycle plans, pedestrian plans and traffic calming plans. Failure to implement these plans within two years would create a cause of action for bicyclists, pedestrians and users of micromobility devices injured as a result of a collision with a vehicle within corridors with large pedestrian and bicycle volumes.

### **Office of Small Business**

Presenter: Kerry Birnbach

AB 2164 (Lee): Disability access: certified access specialist program

***Recommended Position: Support***

Current law requires that a City or a County include an additional four-dollar fee to any business license, instrument, permit, or building permit to support disability access education and improvements. Ten percent of that fee goes to the Division of the State Architect's (DSA) Disability Access and Education Revolving Fund, to be used to support accessibility improvements in places of

public accommodation. Local jurisdictions receive the other 90% of the fee. On January 1 2024, local jurisdictions will receive 70% of the fee, and the fee will decrease to one dollar. This bill would remove the sunset date of the four-dollar fee, and remove the sunset of the 90% fee allocation going to local jurisdictions, making the business license/permit fee of \$4 permanent, and the 90% allocation to local jurisdictions permanent. AB 2164 would also require cities or counties to annually report total fees collected, total number of small businesses who received financial assistance and the amount of financial assistance provided to the California Commission on Disability Access (CCDA).

This bill would require online (e-commerce) retailers that ship purchased products in or into California to reduce from 2023 levels the total weight and number of units of single-use plastic shipping envelopes, cushioning, and void fill used to ship or transport products by an unspecified percentage set by CalRecycle by 2030. The bill would establish exemptions from these requirements.
