## **Department Budget Submission Checklist**

To be completed by: All departments.

<u>Instructions</u>: Submit this completed cover sheet with your budget submission and ensure all applicable forms below are included with your submission.

#### **Department Name: REG (Deaprtment of Elections)**

- ☑ Summary of Major Changes: Completed "Form 1A: Summary of Major Changes" explaining major changes submitted in department's budget proposal.
  - ✓ Proposed GF target reductions
  - **☑ Department Budget Summary:** Completed "Form 1B: Department Budget Summary". The submission includes a copy of report 15.50.012.
- ☑ Revenue Report: Completed "Form 2A: Revenue Report." (15.30.005 Snapshot Comparison)
- ☑ Fees & Fines: Completed "Form 2B: Fees & Fines."
- ☑ Cost Recovery: Completed "Form 2C: Cost Recovery."
- **Expenditure Changes:** Completed "Form 3A: Expenditure Changes." (15.30.005 Snapshot Comparison)
- ☑ **Deappropriations from prior years' budget:** Indicate if these are included in your submitted budget, and please explain in the expenditure changes form 3A
- ☑ Position Changes: Completed "Form 3B: Position Changes." (15.30.004 Position Snapshot Comparison)
- Equipment & Fleet Requests: New General Fund Equipment (Form 4A) and Fleet Requests (Forms 4B.1 and 4B.2) to be made in BFM.
- Minimum Compensation Ordinance: By checking this box, the department confirms that the effects of the MCO in contracting have been considered as part of the budget submission.
- ✓ **Proposition J Description, Summary, City Cost, Contract Cost**: Required for all existing and new Prop Js.
- ☑ Interdepartmental Services Balancing: Included Excel download of Department IDS Form Balancing Report from BFI
- ☑ **Organizational Charts:** Submission contains updated position-level organizational charts for your department, with indication if the position is filled (F) or vacant (V). Organizational charts also reflect any proposed position changes.

#### ✓ New Legislation:

- ✓ Included draft legislation that department would like to submit with the budget; or,
- Draft legislation in progress at this time. A description of the proposed changes is included in the "Summary of Major Changes" table. A draft will be provided to the Mayor's Office by 3/1/23 and final submission by 5/1/23.
- ☑ Other Requests: Submitted requests for the following item:
  - COIT (through a separate form see page 31 of the budget instructions MS Word document)
  - ☑ Capital CPC funded capital requests are made through the new budget system, BFM by 1/20/23

#### For Chief Financial Officer/Budget Manager:

I have reviewed the attached budget submission and affirm that all applicable forms checked off above are either included in this submission or have been submitted through the proper online forums.

#### **Department Response to Major Changes**

Although the Department's budget proposals show decreases in many accounts, it is not the case that the Department is proposing to cut any election programs or services, all of which are critical. The Department is unable to make any major changes to its previously budgeted programs and services because the Department is bound by its mission to continue providing a high level of service to all City voters and prospective voters in a manner that is both equitable and convenient. The savings in the current budget proposals are instead driven mainly by the fact that the Department will conduct only one election in each of the upcoming fiscal years rather than the two elections previously budgeted in the base budget.

Given the four-year cyclical nature of elections, it is typical for the Department's revenues and expenditures to fluctuate from year

Given the four-year cyclical nature of elections, it is typical for the Department's revenues and expenditures to fluctuate from year to-year. Thus, as is the case in every budget cycle, the changes to the Department's budget proposals relative to the approved base budget are informed in large part by the number and type of elections scheduled to occur in the next two fiscal years. What i different about the Department's proposed changes this year is that they are driven mainly by the passage of Proposition H, through which local voters moved local elections to even-numbered years. Consequently, the costs of the San Francisco's next municipal election, originally scheduled for 2023, will be shifted to 2024, a change that is expected to yield a net savings of approximately \$6.9 million, after other factors, such as a longer ballot and Voter Information Pamphlet, are considered. However, it must be emphasized that the costs to conduct an election overall have increased in recent years and are likely to continue to increase due to several factors outside of the Department's control. These factors include a number of mandatory wage increases under the new 2022-2024 Memorandum of Understanding between SEIU Local 1021 and the City, which impact nearly all permanent and seasonal staffing outlays, recent changes to election laws which will increase production and wage costs, and economic factors such as inflation, which are expected to continue to result in increased expenses in the form of, for example rising transportation and delivery costs. In response to these factors, the Department plans to mitigate rising expenditures by introducing new efficiencies wherever legal and logistically feasible.

The second significant legislative change (after Proposition H) which prompted changes in the current budget proposals is Assembly Bill (AB) 1416, through which the state legislature directed the Secretary of State to include the names of supporters and opponents on ballot labels for statewide ballot measures and permitted county Boards of Supervisors to direct local elections officials to do the same for local ballot measures (provided the Board made that decision for all local ballot measures and did so at least 30 days before the local ballot measure submission deadline). The Department anticipates this new law will increase the length of San Francisco ballot measure cards by approximately 50%, increasing costs accordingly across several accounts for all future elections, including paper, postage, and staffing (e.g., for translation and proofing).

# 2. GENERAL FUND TARGET. How did the department meet its target in each year? What are the high-level programmatic, operational, or staffing impacts of this proposed reduction? For non-GFS departments, please describe your strategy for absorbing cost increases or revenue reductions without adding new costs to the General Fund?

The Department's FY 2023-24 and FY 2024-25 budget proposal show a decrease of \$6,431,260 million and increase of \$1,023,678 million, respectively as compared to the base budget of \$30,857,235 and \$27,254,247.

The decrease in the revised FY 2023-24 budget proposal primarily results from the passage of Proposition H in the November 2022 election, through which San Francisco voters amended the City Charter to move local elections to even-numbered years. Accordingly, the Department's revised FY 2023-24 budget proposal reflects the expenses the Department will incur for conducting one election, namely the March 2024 Presidential Primary Election, rather than two elections funded during the last year's budget cycle. In FY 2024-25, the Department will also conduct one election, namely the November 2024 General Election. In consideration of San Francisco's projected budget shortfall, the Department has also proactively sought to identify strategies through which the introduction of efficiencies would be logistically feasible and equitable. Such strategies will include 1) optimizing certain hiring practices to reduce some of the human resources costs associated with hiring nearly 200 seasonal employees for each election; 2) consolidating various tasks to realize savings in vehicle rental expenditures; 3) developing new plans and schedules to allow for ballot processing without leasing additional space; and 4) expanding the repository of digital vote self-help tools to realize cost savings while providing local voters with easy and convenient access to essential elections information.

3. POSITIONS. How are current year staffing leve and vacancies factored into your budget submission? What position changes is the department proposing to prioritize core service delivery while meeting the General Fund reduction target or NGF revenue reductions? Highlight any changes to FTE levels, budgeted attrition, temporary salaries, substitutions, and provide details in Form 3B.

3. POSITIONS. How are current year staffing levels and vacancies factored into your budget submission? What position changes is the department proposing to prioritize core service in every election, the Department must hire many temporary workers to assist full-time staff in performing a variety of election-related duties in a timely manner, releasing all of them at the end of each election cycle. The Department's current budget proposals thus reflect the hiring of temporary staff to assist in the March 2024 and November 2024 elections, which will occur in FY 2023-24 and FY 2024-25, respectively.

For reasons explained above, the net reduction in temporary salaries compared to the base results mainly from the fact that the Department will conduct only one election in each of the upcoming fiscal years, rather than two elections as previously budgeted. As also noted above, these savings will be partially offset by 1) new increases in wages under the Memorandum of Understanding between SEIU Local 1021 and the City, 2) the anticipated length of the ballot and the Voter Information Pamphlet in the March 2024 and November 2024 elections, and 3) the high turnout and administrative complexity associated with presidential elections. The Department does not propose adding any permanent positions to the classification structure approved under last year's Annual Salary Ordinance. The Department does seek to substitute one 1222 Senior Payroll and Personnel Clerk for one 1241 Human Resources Analyst in order to better align the tasks expected to be performed by the person in this position. The Department also proposes attrition savings by transferring the workload associated with a vacant 1062 IS Programmer Analyst position to other two employees in the same classification.

4. EXPENDITURES. What major spending changes The Department's projected expenditures total \$24,265,112 in FY 2023-24 and \$28,267,062 in FY 2024-25 is the department proposing? Please provide As is the case in every budget cycle, any changes to the Department's proposed expenditures relative to the approved base budge information especially for any grant changes, are informed in large part by the number and type of elections scheduled to occur in the next two fiscal years. In this cycle, major contract changes, personnel changes, or however, three new laws will also impact the Department's budget, namely: a) Proposition H, which is expected to reduce overall other changes that affect core services and expenditures by eliminating local odd-year elections from the City's election calendar while also necessitating additional funding to functions. Highlight any changes related to major facilitate what will become larger elections in presidential election years, b) AB 1416, which is expected to increase the length of changes/initiatives as noted in the Summary future ballot measure cards by approximately 50% in most elections, increasing costs to produce the ballot accordingly, and c) AB section and provide details in Form 3A. 2815, which requires the City to expand its drop box availability to cover certain college campuses. These recent legislative changes have ushered in a myriad of changes to the Department's projected variable expenditures. In BY, for example, several large reductions are seen across variable expenditure accounts because the Department will now only conduct one election instead of two elections – some of the decreases itemized on Form 3A include payments to poll workers, temporary salaries and fringe benefits, overtime, printing and postage, professional services, and interdepartmental services. On the other hand, a portion of the aforementioned savings in BY will shift to BY+1 because the November 2024 general election will now include additional local contests. Furthermore, as detailed in Form 3A, the variable costs of administering a given election in San Francisco have increased in recent years and are expected to continue to increase due to factors such as rising wages, the costs of complying with mandates such as AB 1416, and inflation. In addition to these large changes to variable costs accounts, some of the Department's fixed operating costs – those independent of the election calendar – will also increase, albeit only slightly, across certain accounts, including salaries and fringe benefits costs (due to wage increases under the 2022-2024 Memorandum of Understanding). Given that the Department will have to implement and incorporate the changes required by recent legislative changes into its processes going forward, most of the proposed changes in the Department's current budget proposals should be considered ongoing increases or decreases. That being said, the Department is also proposing a potentially one-time increase in FY 2023-24 to support installation of 17 additional ballot drop boxes, for a total of 51 such boxes across the City, or one for every 10,000 voters. (This expansion would incorporate the cost of implementing AB 2815, which requires the Department to maintain at least three more ballot boxes.) 5. REVENUES. What revenue changes did the The Department's projected General Fund revenue and revenue recoveries total \$154,229 in FY 2023-24 and \$668,909 in FY 2024department submit? Please differentiate between 25 and will be realized from two sources: 1) the collection of candidate and paid ballot argument filing fees and 2) the recouping o General Fund and non-General Fund. This should costs associated with administering district and agency elections, with each of these two sources briefly described below. match an Audit Trail, as shown in Form 2A 1. Per state law, the Department may conduct district and agency elections and seek reimbursement to recoup costs associated with administering such elections. The Department expects to realize revenue recoveries from conducting one agency election in FY 2023-24, namely the San Francisco Retiree Health Care Trust Fund Board election, and one agency election in FY 2024-25, namely the San Francisco Retirement Board Election. In addition, the Department expects to receive revenue recoveries in FY 2024-25, when the San Francisco Unified School District (SFUSD), Community College District (CCD), and Bay Area Rapid Transit District (BART) consolidate their elections with the November 8, 2024 General Election. 6. LEGISLATION. Is the department seeking to The Department is not seeking to submit any legislation with the budget. submit any legislation with the budget? Does the department's budget assume any revenues/expenditures that require a legislative change? 7. PROP J. Identify existing Prop J Analyses that The Department has received approval to outsource the assembly and mailing of vote-by-mail ballot packets every year since FY will continue, and if the department's budget 2007-08 and now seeks approval to obtain the same service for the March 2024 election in its FY 2023-24 budget proposal. The proposes any NEW contracting out of work Department is not proposing to outsource any other work done by City workers. previously done by City workers. 8. TRANSFER OF FUNCTION. If so, please explain. 9. INTERIM EXCEPTIONS. Is the department The Department is not requesting any Interim Exceptions. requesting any interim exceptions (new positions that are 1.0 FTE rather than 0.79 in BY and .78 in BY +1)? If so, for what reason are is the request being made?

With equity being a central focus of the Department's mission — To provide equitable access to voting and election-related service and to conduct free, fair, and functional elections — the budget proposals for FY 2023-24 and FY 2024-25 reflect a focus on equity in all projected expenses related to carrying out that mission. Accordingly, the Department's budget priorities continue to center on delivering election services and programs designed to serve all City residents, including its most vulnerable residents, such as those who do not speak English fluently, those with disabilities, those experiencing homelessness or housing insecurity, those confined to hospitals or care facilities, those involved in the justice system, and those living in historically low-turnout communities. More specifically, these current budget proposals fund both programs required by state law and designed to advance equity in the administration of elections, as well as programs unique to San Francisco, but designed to serve the same purpose for specific City communities. Examples of legally required programs include universal vote-by-mail programs, in-person voting programs, emergency ballot delivery to homebound or hospitalized voters. Examples of programs unique to San Francisco include ballot delivery to voters who are incarcerated and the expansion of availability of ballot drop boxes from the legal minimum to better serve local voters. These proposals also include funding for robust voter outreach and education programs, via both direct methods (e.g., attendance of community events and distribution of materials by Department staff) and in collaboration with community-based organizations through grants.

In estimating these revenues for elections scheduled in BY and BY+1, the Department considered historical filling data in similar past elections, as well as the impact of Proposition H, passed in 2022, on the elections schedule. Due to the elimination of San Francisco's municipal election in 2023, the Department's budget proposals reflect a reduction in revenue from candidate and paid ballot argument filing fees in BY, compared to the base budget. However, since these contests will be shifted to the November 2024 ballot, BY+1 reflects a parallel
GFS	REG Elections Services	4600C4Svcs	460149 - Paid Ballot Argument Fee	\$10,000	\$40,000	\$30,000	\$10,000	\$40,000	\$30,000	YES	increase in revenue from such fees.  Increases in revenue in this account are due to Proposition H, a charter amendment mandating that contests for local offices be held in presidential elections and that local ballot measure contests be held only in even-numbered years or special elections, and that also reduced the signature requirements for ballot initiatives from 5% of votes cast for mayor to 2% of registered voters. As a result of Proposition H, the Department expects that there will be an increase in the number of measures submitted to appear on both the March 2024 and November 2024 election ballots, and a corresponding increase in the collection of paid ballot argument fees.

The number of temporary employees hired in each election varies based on specific factors of that election, such as the length of the ballot and projected voter turnout. As a result of Proposition H, the Department will no longer conduct a local election in November 2023. Rather, the Department will conduct two historic, high profile elections in the 2024 calendar year. The decreases in temporary salaries in BY and BY+1 thus result from hiring seasonal personnel for only one election instead of two in BY, but is partially offset by the need to hire more employees for the later, combined election in BY+1.

Given the proposed decreases in temporary staffing in BY and BY+1, the Department projects corresponding decreases in overtime.

GFS	REG Elections Services	5210NPSvcs	527100 - Payments To Poll Workers	\$742,350	\$623,280	(\$119,070)	\$623,280	\$623,280	\$0	YES	The Department's base budget for BY contemplated the cost of providing stipends to poll workers for two elections, while the base budget for BY+1 contemplated the cost for one election. Now, however, as required by Proposition H, there will be only one election in BY. Because the number of poll workers serving in each of these elections, in combination with their stipend rates, would be almost the same, the Department will realize significant savings in this category.
GFS	REG Elections Services	5210NPSvcs	527990 - Other Professional Services	\$4,196,136	\$3,135,100	(\$1,061,036)	\$3,414,407	\$3,135,100	(\$279,307)	YES	Professional service costs incurred in a fiscal year correlate with the numbe of elections conducted. Changes are primarily due to Proposition H and the reduction in number of scheduled elections.
GFS	REG Elections Services	5210NPSvcs	528110 - Security	\$54,000	\$27,000	(\$27,000)	\$37,000	\$27,000	(\$10,000)	YES	In recent elections, the Department has paid for private security at certain polling places at the request of polling place providers. This year, the Department decided to mitigate these costs by assigning one or more additional poll workers to some sites in lieu of paying for private security.
GFS	REG Elections Services	5210NPSvcs	530210 - Garage Rent	\$65,120	\$65,120	\$0	\$32,560	\$75,200	\$42,640	YES	These expenditures cover the cost of renting garage space for election operations and are dependent on both the number and nature of the elections being held. While one election will occur in both BY and BY+1, the paper ballots and Voter Information Pamphlets for the election held in BY+1 are expected to be significantly longer. Because more paper takes up more space, the Department will need to rent additional garage space to accommodate larger and/or additional vehicles, resulting in an increase in BY+1.

GFS	REG Elections Services	5210NPSvcs	530510 - Payments For Polling Locations	\$45,878	\$91,000	\$45,122	\$26,878	\$91,000	\$64,122	YES	While neither the total number of payments to polling place providers nor the stipend rates paid to those providers in each election is expected to change, those made to SFUSD as a polling place provider (reflected above and not covered in this account) have decreased, while those made to owners of other sites have increased. These increases are thus reflected in this account, with parallel decreases shown in the account including payments to SFUSD above.
GFS	REG Elections Services	5210NPSvcs	531210 - Vehicle Rental	\$354,560	\$271,795	(\$82,765)	\$177,235	\$271,795	\$94,560	YES	The Department rents vehicles during an election to perform a variety of critical functions, such as retrieving vote-by-mail ballots from drop boxes, delivering supplies and support personnel to polling places on Election Day, and transporting staff and materials to outreach events. The Department's base budget for BY contemplates vehicle rentals to conduct two elections, while the base budget for BY+1 contemplates vehicle rentals to conduct one election. Now, as a result of Proposition H, only one scheduled election will occur in each of these fiscal years. While there are equal number of elections occurring in BY and BY+1, the ballot and Voter Information Pamphlet for the November 5, 2024 election, occurring in BY+1, are expected to be significantly larger than those for the March 5, 2024 election. Because longer materials take up more space, the Department will need to rent larger and/or additional vehicles, resulting in an increase in BY+1.
GFS	REG Elections Services	5210NPSvcs	531990 - Other Equipment Rentals	\$58,408	\$49,000	(\$9,408)	\$29,204	\$49,000	\$19,796	YES	In each election, the Department rents equipment such as forklifts, dollies, and transport carts to efficiently transport. hundreds of pallets of voting materials, including ballots, envelopes, and voter pamphlets. Since only one election is now scheduled for each of these fiscal years, the Department expects equipment rental costs to decrease in BY, with increases in BY+1 reflecting the actual costs of equipment rentals incurred in the November 2023 election.
GFS	REG Elections Services	5210NPSvcs	535520 - Printing	\$5,259,660	\$4,137,194	(\$1,122,466)	\$2,949,120	\$6,993,603	\$4,044,463	YES	Changes in this account result from 1) Proposition H's reduction in the number of scheduled elections from two elections to one election (reducing total printing expenditures) in BY, 2) AB 1416's requirement to print additional text with some or all ballot measures (increasing the length of the ballot and associated printing costs) in both BY and BY+1 and 3) the need to include local contests on the ballot for the election in BY +1 (also increasing the length of the ballot and associated printing costs). The Department is projecting the BY +1 ballot will consist of seven cards, the longest in the City's history, and the most expensive. Projected costs to print a seven-card ballot are based on quotes provided by the Department's ballot printing vendor.
GFS	REG Elections Services	5210NPSvcs	535610 - Postage	\$1,455,605	\$856,188	(\$599,417)	\$1,455,605	\$856,188	(\$599,417)	YES	Postage costs incurred in any given fiscal year correlate with the number of elections conducted. Changes are primarily due to Proposition H and the reduction in number of scheduled elections.
GFS	REG Elections Services	5210NPSvcs	535710 - Subscriptions	\$22,858	\$18,258	(\$4,600)	\$22,858	\$18,258	(\$4,600)	YES	These expenditures cover subscription costs to host the online version of the Voter Information Pamphlet. Changes are primarily due to Proposition H and the reduction in number of scheduled elections.
GFS	REG Elections Services	5210NPSvcs	535810 - Advertising	\$196,486	\$348,243	\$151,757	\$98,243	\$398,243	\$300,000	YES	increases in the Department's advertising budget will help to secure additional radio, television, print, and social media advertisements to effectively educate City voters about key election-related topics, including Presidential Primary rules and the consolidation of local offices to the November 2024 election ballot, and to encourage all eligible San Francisco residents to participate in upcoming elections.
GFS	REG Elections Services	5210NPSvcs	552210 - Fees Licenses Permits	\$34,256	\$17,128	(\$17,128)	\$17,128	\$17,128	\$0	YES	These expenditures cover permit payments to place porta potties outside of polling places that require them as well as permit fees that cover the Department's participation in outreach events (i.e., festivals, job fairs.) The Department's base budget in this account for BY contemplates costs to conduct two elections, while the base budget for BY+1 contemplates costs to conduct one election. Now, as a result of Proposition H, only one scheduled election will be occurring in each of these fiscal years, and the Department expects that costs in this account will be consistent for each of these elections. Proposed decreases in BY thus reflect the reduction in the number of scheduled elections.
GFS	REG Elections Services	5380CityGP	538000 - CBO Services - Budget	\$300,000	\$400,000	\$100,000	\$300,000	\$400,000	\$100,000	YES	To supplement the Department's direct efforts to educate San Franciscans about key election topics, the Department seeks additional grant funding to provide to organizations that are well-situated to provide effective outreach to members of the City's hard-to-reach and vulnerable populations.
GFS	REG Elections Services	5400Mat&Su	542210 - Hardware	\$621	\$77,121	\$76,500	\$621	\$621	\$0	YES	The current budget proposals include the funding necessary to support installation of an additional 17 ballot boxes – this would bring the citywide total up from 34 boxes to 51 ballot boxes, or one for every 10,000 voters. This proposed expansion would also incorporate the provisions of Assembly Bill 2815, which became operative in 2023, requiring the Department to maintain at least three more ballot boxes, including a ballot box on the main campus of any California State University within the jurisdiction and to request permission to maintain a ballot box on any University of California campus within the jurisdiction.

Changes are primarily due to Proposition H and the reduction in the number of scheduled elections. However, some savings are due to the introduction of new efficiencies, including the repair of certain damaged materials (i.e., uoting booths) rather than the purchase of replacements, and the repurposing of existing materials when feasible (i.e., using recycled cardboard boxes to store materials rather instead of purchasing new banker boxes).

#### BUDGET FORM 4A: New General Fund Equipment Requests - No Vehicles

DEPARTMENT: REG

Departments that are making General Fund equipment requests should complete form 4A in BFM.

Do not load General Fund equipment requests in the budget system - they will be loaded centrally in Mayor phase.

Completing this form in BFM will not load General Fund to departmental budgets.

Equipment numbers will be finalized after the Mayor's Budget Office determines citywide equipment allocations.

Where applicable, include installation/outfitting costs in the same line item budget request.

Equipment Numbers BFM has prepopulated numbers to be used.

Equipment Numbers in BFM have 8 characters with the format

%dept%budget year%seq (ex. AAM23001).

		The Department currently owns two Election Mail Sorting and											
		Processing Systems, and seeks to purchase a third system.											
		These systems aid in the processing of vote-by-mail and											
		provisional ballot envelopes. The speed at which these syster											
		function is partially determined by the thickness of the											
		envelopes. With the November 2024 election expected to have	е										
		a seven-card ballot, the Department expects that processing											
		rate of each system will decrease significantly. Such decrease											
		in processing speed are compounded by high voter turnout											
	Election Mail	during Presidential elections. Having three systems instead of											
	Sorting and	two will mitigate the reduced capacity of each system, increas

Contract: Assembly and mailing of vote-by-mail ballot packets for FY24

#### SEC. 2.15 SUPPLEMENTAL REPORTS REQUIRED

Any officer, department or agency seeking Board approval of a contract for personal services under Charter Section 10.104(15) shall submit a supplemental report to the Board of Supervisors in connection with the contract and the Controller's certification.

The report shall summarize the essential terms of the proposed contract and address the following subjects:

1. The department's basis for proposing the Prop J certification;

The Department's Assembly of Vote-by-Mail Ballot Packets Prop J service for FY 2022-23 was approved during the last year's budget cycle and none of the assumptions used to calculate costs have significantly changed. The Department is seeking approval for the Assembly of Vote-by-Mail Ballot Packets Prop J service for FY 2023-24.

As shown in the Prop J Summary, the City stands to save an estimated \$1,704,461 by outsourcing the assembly of vote-by-mail packets.

- 2. The impact, if any, the contract will have on the provision of services covered by the contract, including a comparison of specific levels of No impact.
- 3. The department's proposed or, for contract renewals, current oversight and reporting requirements for the services covered by the The Department performs a cost analysis that compares the outsourced services with the services received and billed, prior to processing any form of payment.
- 4. The contractor's proposed or, for contract renewals, current wages and benefits for employees covered under the contract, and the 0.51 per Assembled Packet 3 Cards
- 5. The department's proposed or, for contract renewals, current procedures for ensuring the contractor's ongoing compliance with all The proposed vendor is qualified by the Office of Contract Administration and Contract Monitoring Division for doing business with the City.
- 6. The department's plan for City employees displaced by the contract; and,

This service will not result in the displacement of City employees.

- 7. A discussion, including timelines and cost estimates, of under what conditions the service could be provided in the future using City Unknown.
- 8 Changes in any elements of the Contractor and/or City side since the prior approved Prop J.
