Foreword

Being overweight and obese has become a major health problem in California, including in our Chinese community. In California, more than a third of Chinese adults are overweight or obese.¹ Among Chinese Americans, approximately 2% of normal weight adults have diabetes, whereas this number rises to more than 11% for adults who are obese.²

Among Asian Americans, 58% of California children³ and 77% of adults¹ are not eating enough fruit and vegetables. Eating at least 2 to 6½ cups of fruits and vegetables (depending on your age, gender and activity level), and getting 30 to 60 minutes of physical activity every day, may help to lower our risk of becoming overweight and our risk of cancer, heart disease, Type 2 diabetes and obesity.⁴

This bilingual booklet suggests ways to increase fruit and vegetable consumption and provides helpful tips on staying active. These easy methods to improve intake of fruits and vegetables are enhanced by celebrity chef Martin Yan and nutritionist Catherine Wong from Chinatown Public Health Center. They share their secrets for healthy eating and cooking using authentic Chinese recipes.

I am pleased to recommend this well written and illustrated booklet that will help keep you healthy.

Sincerely,

序言

在加州，包括我們華人社區，身體過重與肥胖症已成為主要的健康問題。在加州，超過三份一的華裔成年人屬超重或肥胖。¹在美籍華人中，大約有2%正常體重的成年人患有糖尿病，而在超重的成年人中，患有糖尿病的數字高達11%以上。²

在美國亞裔人口中，58%的加州兒童³和77%成年人¹蔬果進食量不足夠。如果每天最少進食2杯至6杯半的水果蔬菜，加上30至60分鐘的體力活動，便能減少身體過重、患癌、心臟病、第二型糖尿病和肥胖症的危機。³

這本雙語手冊協助讀者多吃蔬果，並保持活躍的生活。由名廚甄文達和營養師黃嘉慧向讀者分享他們的健康飲食與烹飪心得、提供中式食譜，來增加蔬果進食量。⁴

本人十分樂意推薦這本圖文並茂的手冊，祝你健康長壽。

Foreword

Obesity is a leading public health problem in the United States, with more than 30% of adults and approximately 17% of children categorized as obese.⁵ Based on a recent statewide survey, over 35% of Chinese adults are overweight or obese and over 75% are not eating enough fruits and vegetables.⁶ With respect to dietary behaviors, fruit and vegetable consumption promotes nutrient adequacy, disease prevention, overall good health, and may also protect against weight gain.⁷

To help prevent obesity and diet-related health problems, follow the current Dietary Guidelines for Americans:⁸

- make half your plate fruits and vegetables,*
- make at least half your grains whole grains, and*
- switch to fat-free or low-fat milk and milk products.*

When planning meals, serve smaller portions, drink fewer sugary beverages, like soda, juice drinks and energy drinks, and use low sodium ingredients. If you don't drink milk you can try calcium fortified almond, soy or rice milk or lactose-free milk. In general, lactose-free milk provides more nutrition than the other options.

This cookbook will help you prepare healthy and traditional home-cooked Chinese meals for you and your family.

Look to the meal planning guide to see if your family is eating enough fruits and vegetables to promote good health. Refer to the physical activity suggestions to see how you and your family can include the daily physical activity that is so important in maintaining whole body wellness.

We wish you and your family many years of good health.

Sincerely,

序言

在美國，肥胖是一個公共健康的主要問題，超過百份之三十的成人和百份之十七的兒童是肥胖。⁵根據最近的加州調查顯示，超過百份之三十五的華裔成年人是超重或肥胖，和超過百份之七十五的成年人水果蔬菜進食量不足夠。⁶進食蔬菜水果有助吸取足夠營養、預防疾病、促進整體健康和防止體重增加。⁷

要預防肥胖和與飲食有關的健康問題，可參考最新的美國飲食指引：⁸

- 餐碟的一半是水果和蔬菜
- 穀類有一半應是全穀類
- 選用脫脂或低脂奶和奶製品

在預備膳食時，提供較小份量的食物，減少飲用糖份飲品，如汽水，果汁飲品和能量飲品，和選用低鈉的材料。如果你不飲牛奶，可選擇飲加鈣杏仁奶、豆漿、米漿或無乳糖的牛奶。相比之下，無乳糖牛奶通常提供比較多的營養。這本食譜可幫助你為你和你家人預備健康和傳統的自家中國菜。

大家可參考食譜入面的膳食計劃指引，看看你家人是否進食足夠的水果和蔬菜，以促進身體健康。參考體力活動建議，看看你和你家人怎樣使日常的體力活動成為維持整體身體健康的一部份。

祝你和你的家人身體健康。

Nutrition Education and Obesity Prevention Chinese Project

The Nutrition Education and Obesity Prevention Chinese Project (formerly Network for a Healthy California - Chinese Project) would like to present to you a colorful and flavorful way of healthy eating incorporated into Chinese cooking.

Healthy eating and active lifestyles are the primary ways to prevent major causes of chronic disease and death in the United States. Research shows that eating at least 2½ cups of vegetables and fruits per day is associated with a reduced risk of heart disease and stroke. Some vegetables and fruits may be protective against certain types of cancer. ⁹ Strong evidence indicates that having regular moderate-intensity physical activity for at least 150 minutes per week lowers the risk of developing heart disease, stroke, high blood pressure, type 2 diabetes and certain types of cancer. ¹⁰

This booklet informs you of the Dietary Guidelines for Americans by the U.S. Department of Agriculture and the U.S. Department of Health and Human Services, health benefits of fruits and vegetables, the amount that you need to eat, and the healthier ways of cooking with fruits and vegetables. We have chosen the galloping horse for our project logo because it symbolizes health, strength and vitality for the Chinese.

Enjoy eating a variety of colors and flavors of fruits and vegetables, be active and change your family's lifestyle to lower the risk of many chronic diseases.

We wish you and your family an energetic and healthy life!

Sincerely,

Catherine Wong M.P.H., R.D.

What Should I Eat Every Day?

This is the recommendation for food intake and physical activity according to Choose MyPlate and the Dietary Guidelines by the U.S. Department of Agriculture and the U.S. Department of Health and Human Services in 2010.

GRAINS

Make half of your grains whole

Eat at least 3 oz. of whole grain cereals, breads, crackers, rice, or pasta every day.

1 oz. is about:

- 1 slice of bread, or
- 1 cup of ready-to-eat cereal flakes, or
- ½ cup of cooked rice, cereal, or pasta

VEGETABLES

Vary your veggies

Eat more dark-green veggies like broccoli, spinach, and other dark leafy greens.

Eat more orange vegetables like carrots and sweet potatoes.

Eat more dry beans and peas like soy beans, kidney beans, and black beans.

FRUITS

Focus on fruits

Eat a variety of fruits.

Choose fresh, frozen, canned, or dried fruit.

Go easy on fruit juices.

Dairy

Get your calcium-rich foods

Go low-fat or fat-free when you choose milk, yogurt, and other milk products.

If you don't or can't consume milk, choose lactose-free products or other calcium fortified foods and beverages.

Protein

Go lean with protein

Choose low-fat or lean meats, poultry, and fish.

Bake it, broil it, or grill it.

Vary your protein sources – choose more beans, peas, nuts and seeds.

1 oz = a piece of meat, fish, or skinless chicken the size of a mahjong tile, or 1 egg, or ¼ cup tofu, or ¼ cup cooked dry beans

For a 2,000-calorie diet, you need the amounts below from each food group. To find the amounts that are right for you, go to <http://www.choosemyplate.gov/myplate/index.aspx>

Eat 6 oz. every day

Eat 2½ cups every day

Eat 2 cups every day

Get 3 cups every day

Eat 5½ oz. every day

Find your balance between food and physical activity

- Stay within your daily calorie needs.
- Be physically active for at least 30 minutes most days of the week.
- About 60 minutes a day of physical activity may be needed to prevent weight gain in adults.
- For sustaining weight loss, at least 60 to 90 minutes a day of physical activity may be required.
- Children and teenagers should be physically active for 60 minutes every day, or most days.

Know the limits on fats, sugar, cholesterol and salt (sodium)

- Make most of your fat sources from fish, nuts, and vegetable oils.
- Limit solid fats like butter, stick margarine, shortening, and lard, as well as foods that contain these.
- Check the Nutrition Facts label to keep saturated fats, trans-fats, cholesterol, and sodium low.
- Choose food and beverages low in added sugar. Added sugar contributes calories with few, if any, nutrients.

Make Supreme Stock to enhance flavor in cooking

“Supreme stock” is used frequently in Chinese cooking; this kind of stock is often made in advance, and used for soup base. “Supreme stock” is usually made with meat or chicken and boiled for at least 3 hours until the flavor is intensified.

You can make your own: (recipe makes 15 cups of stock)

- In a large stock pot, combine 2 pounds lean pork, 1 whole chicken, and enough water to cover at least 4 inches above the ingredients. Cook over high heat. When the water boils, reduce to medium-low heat and simmer for 3 hours. Add 1 teaspoon salt, remove from heat and let stand to cool.
- With a slotted spoon, remove the pork and chicken from the stock. Divide the stock into several smaller, shallow containers and refrigerate for at least 6 hours, or until fat becomes solid on surface of stock. Remove the fat from the stock.
- Use the stock as soup base, sauces and gravies, or to add flavor to vegetable dishes.
- Freeze the stock in ice cube trays or small containers and store in the freezer for future use. Frozen stock can be kept in freezer up to 2 months.
- Try the different recipes using the Supreme Stock on pages 32, 44, 46 and 48.

To prevent food borne illness, the stock should be separated into smaller shallow containers and be refrigerated immediately.

自製上湯為菜餚添味道

上湯或高湯常用於中式烹飪：上湯預先做好，用作「湯底」或調味的汁料。上湯一般用肉或雞熬 3 小時以上，濃化肉味。

你可自己熬製上湯（這食譜可做 15 杯上湯）：

- 在大鍋裡放下 2 磅瘦豬肉、1 隻雞，下水蓋過材料面上 4 吋。高溫煮沸，水沸後轉中慢火熬 3 小時。下 1 茶匙鹽，關火待涼。
- 用罩籬把肉料取出，將上湯分盛在不同的盒子或容器裡，置冰箱 6 小時後，或待油脂凝結浮在湯面上，將凝結的油脂撇除。
- 上湯可用來煮湯、做芡汁、肉汁、或給蔬菜調味。
- 把上湯盛在冰盤或小容器裡，放冰庫裡冰藏以後用。藏在冰庫的上湯可貯存達 2 個月。
- 請試用本書裡各款採用上湯的食譜，第 33，45，47 和 49 頁。

以防食物中毒，煮好的上湯應分開盛在盒子或容器裡，立刻置冰箱裡儲存。

Ingredients:

- 4 pieces 2 inches x 2 inches firm tofu
(frozen overnight or 8 hours ahead of time)
- 16 slices of ham, extra lean, 2 inches x 2 inches
(approximately 5 oz total weight)
- 6 dried shiitake mushrooms, soaked for 30 minutes or until soft, stems removed
- 1 cup homemade supreme stock (see pg. 22), or low sodium chicken broth

Sauce

- 2 teaspoons cornstarch
- 1½ teaspoons soy sauce

7. Garnish the tofu and ham arrangement with broccoli, pour gravy on top and serve.

Nutrition tips:

Freezing the tofu produces a spongy and meaty texture.

Stock can enhance the flavor of vegetables and low fat dishes (refer to page 22 for direction on making stock).

Vegetable and Chicken Dumplings with Chinese Broccoli

Makes 10 servings (1 serving = 6 dumplings)

Ingredients:

60 thin wonton wrappers

2 pounds Chinese broccoli or 1½ pounds tender greens

Filling

½ pound skinless, boneless chicken breast, finely chopped

1 cup finely chopped bok choy leaves

½ cup finely chopped jicama or bok choy stalks

4 dried shiitake mushrooms, soaked for 30 minutes or until soft, stems removed, and chopped

½ cup black fungus, soaked for 30 minutes or until soft, chopped (optional)

1 teaspoon sesame seed oil

½ teaspoon salt

3 teaspoons cornstarch

1 egg white

Preparation:

1. In a large bowl, combine filling ingredients, and mix well.
2. To make each dumpling, place 1 teaspoon filling in a wonton skin, fold in half, pinch edges to seal the dumpling. Repeat with remaining filling and wonton skins.
3. In a large pot bring 10 cups of water to boil, add dumplings and cook until dumplings float to the water surface, about 7 to 8 minutes. Remove dumplings from water, set aside.
4. Cook the Chinese broccoli in the boiling water until tender but crisp, about 10 minutes, remove from water.
5. For one serving, place 6 dumplings and ½ cup of the cooked broccoli in a small bowl and serve.

Suggestions:

- Dumplings can be served in supreme stock or chicken broth and with leafy green vegetables, garnish with carrots and string beans.
- Uncooked dumplings can be frozen for later use. Cook frozen dumplings in boiling water, thawing before cooking is not necessary.

Nutrition tips:

Unlike the traditional recipe, which is mostly meat filling, the combination of vegetables and chicken not only adds vitamins and fiber but also reduces the fat in this recipe.

Add bok choy or Napa cabbage to the wonton filling to provide texture, vitamins and fiber.

- 1 cup bamboo shoots, julienned (sliced thinly in strips)
- ½ cup shredded carrots
- ½ cup dried shiitake mushrooms, soaked for 30 minutes or until soft, stems removed, and julienned
- 2 green onions, julienned
- ½ teaspoon salt
- 1 teaspoon sugar

- ¼ cup vegetable oil
- 2 eggs
- 2 cups flour
- 1 teaspoon salt
- 1 teaspoon cinnamon
- 1 teaspoon baking soda
- 4 cups diced apple chunks
- ¼ cup applesauce
- 2 cups sliced apple to place on cake top

Preparation:

1. Preheat oven to 350° F.
2. In a large bowl, mix sugar, oil and eggs together. Beat well.

5. Coat a baking pan with vegetable oil spray, and pour in batter. Bake until done, about 1 hour.
6. Place apple slices on top of apple cake and serve.

Nutrition tips:

As a rule, half of the amount of fat in a dessert recipe can be replaced with applesauce or a puree of another fruit, such as prune puree. The result is a very moist, low-fat cake enhanced by the flavor of fresh and nutritious apples.

The amount of sugar in this recipe has been reduced by one third, as compared to the original recipe. Use vegetable oil spray to prevent the cake from sticking to the pan.
