	Question Submitted	MOHCD Response
1	What does it mean work with MOOHCD staff to understand the scope and confinements to MOHCD's Grant Management System?	Our grant management system is what we use to track grantee activities and spending. The strategic plan should take into consideration the various data points, which can be imperfect, that the system utilizes to measure performance and outcomes. The hope is that aligning the strategic plan with the scope of our system would help MOHCD gather data in a way that tells us how we are doing against our objectives a little better than we have done in the past.
2	The RFQ lists that the respondents should build upon previous strategic plans and other documents, could you provide the documents listed?	Yes, the following documents will be provided under the header RFP Documents on the RFP webpage. https://sf.gov/information/request-qualifications-soma-strategic-planning
