PROJECT DESCRIPTION

The Final Environmental Impact Report (EIR) certified in 1992 for the San Francisco International Airport Master Plan analyzed impacts from proposed land use and circulation projects on Airport property. One component of the overall Master Plan final EIR included development of administration/office facilities. The administration facilities as envisioned in the Master Plan was modified and these revisions were evaluated in an addendum to the FEIR published in 2015. The Airport Commission approved the modifications that same year and a portion of the project has subsequently been constructed in the West Field area of the airport. Since adoption of the Master Plan and publication of the 2015 Addendum, the Consolidated Administration Campus as envisioned in the Master Plan has been further modified and includes a 338,000 square foot, 132-foot-tall consolidated administration building, a 96-foot-tall parking garage with up to 1,400 stalls, and expansion of the West Field AirTrain station platform and construction of elevated pedestrian bridges providing access between the AirTrain station and facilities in the West Field area. AirTrain is the airport’s automated people mover system. The project would be designed and constructed to meet LEED Gold requirements.

DETERMINATION

The City and County of San Francisco, by and through the San Francisco Airport Commission, decided to carry out or approve the above-described Consolidated Administration Campus project, on April 18, 2023. A copy of the document(s) may be examined at San Francisco International Airport, Bureau of Planning and Environmental Affairs, 674 West Field Road, 2nd Floor, San Francisco, CA 94128, in File No. 4020.47.

1. An Environmental Impact Report was prepared and certified pursuant to the provisions of CEQA.
2. A determination has been made that the project in its approved form will have a significant effect on the environment and findings were made pursuant to Section 15091 and a statement of overriding considerations was adopted pursuant to Section 15093.
3. Mitigation measures were made a condition of project approval.

Rich Hillis
