

# GET CONNECTED *to* **FREE HOME INTERNET**

The Affordable Connectivity Program (ACP) is a federal government program that offers eligible households **\$30/month** toward home internet services.

Scan the code  
to get started.

ACP makes home internet

**FREE** with some plans.

## *4 steps* To Get Connected

**1 QUALIFY**  
Check if  
you qualify

**2 APPLY**  
Apply for ACP

**4 ENROLL**  
Select Internet  
Service Provider and  
enroll in service plan

**3 CONFIRM**  
Receive confirmation  
that you qualify

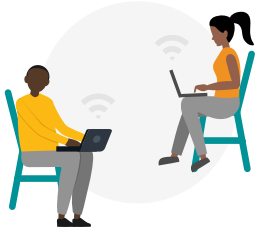

# Internet Speeds to Meet Your Needs

How to choose a plan that is right for your household.

## 1. How many people will use the internet?

When more people share the same connection, a faster plan is needed to accommodate their devices.

### Plans for households with limited internet use

HOW MANY PEOPLE IN HOUSEHOLD	DOWNLOAD SPEEDS	UPLOAD SPEEDS
1-2	50 Mbps	5 Mbps
2-4	100 Mbps	10 Mbps
4-6	200 Mbps	10 Mbps
6+	300 Mbps	15 Mbps

### Plans for households who need higher download speeds

DOWNLOAD SPEEDS	UPLOAD SPEEDS
100 Mbps	10 Mbps
200 Mbps	15 Mbps
500 Mbps	20 Mbps
1000 Mbps	30 Mbps

If your connection speed is too slow, you'll see buffering.

## 2. How will you be using the internet?

Downloading is when the internet shares information with your computer. You'll need higher download speeds when watching Netflix and online gaming, than if you only **surf the web, use social media, and do online shopping.**

More day-to-day activities also require the fastest upload speeds (when our computers share information with the internet) e.g. **Zoom and video/audio calls, online gaming and sharing photos on social media.**
