Project Description

The San Francisco Municipal Transportation Agency (SFMTA) proposes the following corridors for inclusion in the Slow Streets Program (Case no. 2022-008095ENV): Bonifacio, Lapu Lapu, Mabini, Tandang Sora, and Rizal streets between Folsom and Harrison Streets (SoMa) Slow Streets. The project would implement design treatments from the Slow Streets Toolkit along these proposed corridors to limit traffic volumes and speeds so that people may travel safely by foot, bicycle, and other forms of active transportation. In particular, the Slow Streets use a suite of durable design treatments to create these streets, including:

- Traffic diversion elements
- Turn restrictions
- Traffic calming elements (e.g., speed humps)
- Wayfinding signs
- Pavement markings
Determination
