Page 4 - Overall Building Front View

5 Provide depth of awning.

6 Provide sidewalk width, measured from the building to the edge of the curb.

7

**Provide size and number of attachments at top (if any).
Example: 3/8" screw minimum 2" into wood at seven locations.**

8

**Provide size and number of attachments at bottom (if any).
Example: 3/8" screw minimum 2" into wood wall at two locations.**

9

If the building has a fire escape above the awning, show and label an awning flap to accommodate a drop down ladder.

10

Indicate if any of the windows on the floors above the commercial unit is a bedroom.

If YES, provide the height of the bottom of the window sill to the sidewalk for each window on each floor up to the third story. Only measure up to the third story if there are more than three floors.

If NO, indicate that the windows above the commercial space are not bedroom windows.
