Order of Business:

- 1. Call to Order / Roll Call** – 1 minute Meeting called to order 10:03am.
Subcommittee Members Present: Jamey Schmidt, Marna Armstead, Abby Cabrera, Irene Hilton, Laura Urban
Subcommittee Members Absent: Saeeda Hafiz
Guests: Haley (HIFY), Cindy Rios (HIFY)
- 2. Approval of May Meeting Minutes** – 3 minutes [discussion and action]
Jamey motions to approve. Abby seconds. 4 votes, minutes are approved.
- 3. Review and Consider Agenda** – 2 minutes [discussion and action]
Jamey motions. Marna seconds. 4 votes, agenda is approved.
- 4. General Public Comment**- 10 minutes [discussion]
No Public Comment
- 5. Housekeeping** – 15 minutes [discussion and possible action]
Staff shares that this year marks the 5th year of the soda tax. Staff is in the early stages of planning for a 5 year celebration in conjunction with Dean Schillinger who will host grands rounds at Zuckerberg Hospital in September. As soon as date is confirmed with share with SDDTAC. If interested in planning, reach out to backbone staff.

Staff shares highlights of proposed SDDT budget FY 23-24 from the Mayor's Office. Most of the SDDTAC recommendation budget allocations were adopted by the Mayor's Office. Mayor's Office representative

has been invited to the SDDTAC meeting next week and awaiting to hear back to hear rationale and final proposed allocations.

Members shares that should this be the final budget, it is typical of what they see each year, some areas are over funded and there could be a combination for rationale, such as other sources of funding from elsewhere.

6. Data Report Update - 30 minutes [discussion and possible action]

Christopher Lee shares data report update. Currently, the main data sources include the following and identifying which data sources to include from Youth Risk Behavior Surveillance System (YRBSS), Health Care Access and Information (HCAI), CA Health Interview Survey (CHIS), Vital Records Business Intelligence System (VRBIS) and Information Resources, Inc. (IRI). He shared various data points that could possibly be included as part of the data report as some data is incomplete.

Members suggested that since data is not usable due to inconsistencies, to possibly look at the trends and associated it with its funding source. If diabetes was trending downward, what programs were funded to support the misaligned budget. The hard thing with diabetes chronic disease, there are interventions that could happen. Who is receiving the benefit of the intervention and not just SDDT funded ones but others.

There might be a way to look at the HCAI data not by district but via hospital data. Identify outcomes and part of the analysis that will be taking place possibly via zip code/district-based data. Suggestions to note that people experience having less control of healthy choices, while SSBs remained cheap and accessible. In relation to food security, expectation of funding to go down in 2021 since food assistance programs are ending or reduced funding support. Suggestion to also measure food security by federal poverty level for children and teens whose families are on SNAP. Christopher will continue his research and analysis and share with SDDTAC on his findings.

7. SDDT Messaging on Evaluation, Budget Recommendations, etc. 20 minutes [discussion and possible action]

Members discuss what other opportunities are there to use materials for messaging. Important that materials/messaging to be used over time, especially to ensure that the Mayor' Office and Board of Supervisors to grasp the work of SDDTAC and its funding to support the communities that are benefiting from this funding. Messaging should include specific data points based on Board of Supervisor's interest and their district.

Messaging should be targeted and uniform. Data from Raimi & Associates and Christopher's findings should be a starting point. Since there is no long-term data as of now, how will the story be told, who is the audience and what should they hear.

Suggestions of including mapping, including specific areas and include priorities. Important to fill in more information from co-chairs to help with SDDTAC members to speak and advocate, what we want to convey is that SDDTAC recommendations to be aligned with community, etc. Members agree to continue conversation to discuss what the product will be.

8. Presentation from Health Initiatives for Youth – 20 minutes [discussion and possible action]

Haley Ireland and Cindy Rios from Health Initiatives for Youth present the work of the Snack Squad. Snack Squad: Healthy Schools – A Nourishing and Nutrition Program. The Snack Squad’s goal is to shift knowledge, attitudes and behaviors among low-income youth (especially youth of color) in SF schools around choosing healthy food and beverages, framing food and food culture in the context of community health and social justice. Curriculum includes 12 sessions, including cooking challenges with grocery boxes and culminating events. The Snack Squad is implemented at the following school sites: Hilltop HS El Camino, Balboa HS, Burton HS, Lincoln HS, Independence HS and June Jordan HS. Their community-based organization partners are: United Playaz, BACR, Latino Task Force and the Boys & Girls Club. During the past 3 years they have served at total of 630 youth and shared data collected from their surveys.

9. Subcommittee Summer Hiatus 10 minutes [discussion and possible action]

Abby motions for data & evidence subcommittee hiatus in July. Jamey seconds. 4 votes. Motion passes.

10. Data Point Sharing – 5 minutes [discussion and possible action]

Continued to next meeting as data points were discussed in previous agenda item.

11. Proposed Agenda Items for August Meeting – 2 minutes [discussion and possible action]

- Continue discussion on messaging
- Potential Presentation from food insecurity experts, but will present at SDDTAC
- Raimi & Associates presentation

NOTES:

PUBLIC COMMENT

General Public Comment: At this time, members of the public may address the SDDTAC Advisory Committee on items of interest to the public that are within the subject matter jurisdiction of the Committee but do not appear on the agenda.

With respect to agenda items, the public will be given an opportunity to address the Committee when the item is reached in the meeting. Each member of the public may address the Committee for up to three minutes.

The Brown Act forbids a Committee from taking action or discussing any item not appearing on the posted agenda, including those items raised at Public Comment. In response to public comment on an item that is not on the agenda, the Committee is limited to:

- Briefly responding to statements made or questions posed by members of the public, or
- Requesting staff to report back on a matter at a subsequent meeting, or
- Directing staff to place the item on a future agenda. (Government Code Section 54954.2(a).) 10.

Each action item will hold public comment before a vote is made.

Explanatory documents are available at the 25 Van Ness Ave, Suite 500 during regular business hours. If any materials related to an item on this agenda have been distributed to the SDDTAC after distribution of the agenda packet, those materials are available for public inspection at the address above during normal business hours.

RINGING AND THE USE OF CELLPHONES

The ringing of and use of cell phones, pagers and similar sound-producing electronic devices are prohibited at this meeting. Please be advised that the Chair may order the removal from the meeting room of any person(s) responsible for the ringing or use of a cell phone, pager, or other similar sound-producing electronic devices.

	Budget Descriptions: SDDTAC recommends investing in strategies that support mental health and wellbeing and workforce pathways for impacted/priority populations.
COMMUNITY-BASED GRANTS	City Departments should contract directly with CBOs through an RFP process managed through the Community Health Equity and Promotion (CHEP) Branch of the Department of Public Health. CBG should support community-based programs and services that address the health inequities of those most targeted by the beverage industry. Funding should go to Community Based Organizations (CBOs) and Faith Based Organizations (FBOs) for the following strategies: 1. Health Education activities including, chronic disease prevention, healthy eating and active living, tap water promotion, oral/dental health 2. Physical Activity opportunities, including: a) Dance and movement, sports, yoga, walking groups, biking, etc.; b) Changes to the built environment (ie sidewalks, streets, parks, buildings, etc) or safety of the built environment that facilitates increased physical activity and walking and biking for utilitarian trips, sometimes referred to as active transportation 3. Food Security, including: a) Community-based pantries, community-based hot meals, community kitchens and community home delivery services; b) Increased financial resources (i.e. wages, income, government nutrition supplements, vouchers, etc.); c) Changes to the built environment that facilitate food security; and d) Pursuit of institutional or local policies that facilitate food security. 4. Water Promotion, such as support for Spa Water Supplies, station maintenance/beautification, refillable water bottles to distribute to communities, water testing 5. Community Based Participatory Research
Health education, food security, physical activity	
Food As Medicine MediCal Waiver Program	One time infrastructure and capacity building grants for community based food organizations to prepare them to contract with health plans, use medical coding and billing, share confidential patient information, and other areas needed to access Medi-Cal funding for meals and groceries and nutrition services rendered. This funding will build off the successful capacity building cohort pilot in FY 2022-2023 which included 7 CBOs receiving both tailored, individualized technical assistance and cohort-level training and capacity building. Currently no CBOs are

	contracted with the SF Health Plan, the main Medi-Cal managed care plan serving the city, to deliver medically supportive food and nutrition services.
CBOs working with SFUSD	Recommend 3% of all CBO funding go towards CBOs implementing programs/initiatives that take place in school settings. Funding to issue grants to CBOS should follow the guidelines above.
SFUSD	
School Food, Nutrition Ed	To improve the quality and appeal of school meals and support nutrition education to increase participation in school meal programs (for example: cooking and serving equipment, staff professional development, and innovative procurement and menu strategies to increase freshly prepared food). Funding will target schools with the largest populations of high-risk students that are disproportionately targeted by the sugary drinks industry.
Student Led Action	Support student led efforts to decrease consumption of sugary drinks and increase awareness of sugary drinks consumption among students, with focus on schools with the largest populations of high-risk students that are disproportionately targeted by the sugary drinks industry. SFUSD should provide to SDDTAC a proposal of how funding will be spent through student led action. Funding to also support adequate staffing for implementation.
FOOD ACCESS	
Healthy Food Purchasing Supplement	Support programs that increase financial resources to purchase healthy food such as vouchers and food purchasing incentives. These funds should be RFPed out to CBOs and FBOs. Funding should support programs and services that increase financial resources to purchase healthy food; access to healthy fruits and vegetables while minimizing processed foods for high-risk communities; food that are affordable and convenient; and programs that support the consumption of healthy foods including the ability to prepare and store meals and the knowledge of basic nutrition, food safety and cooking. Priority programs should incorporate a community-based food security perspective and have demonstrated increased ability of food insecure residents to purchase, access, and consume consumption of healthy, fresh, low-to-no cost and culturally appropriate foods, including but not limited to food vouchers/incentives, transportation and delivery and prepared foods.
Healthy Retail	Supporting small business to increase healthy food access in high risk and impacted communities and neighborhoods by: 1) supporting business operations; 2) promoting community engagement; and 3) improving the retail environment.
ORAL HEALTH	
Community task forces	Support development of community infrastructure such as oral health community task forces that incorporate diverse stakeholders for outreach, education, and interventions to address the oral health needs of children in high risk populations.
School-based sealant application	Support SF DPH oral health staff providing cavity-preventing sealants to high-risk populations within SFUSD schools. Sealants protect the chewing surfaces of teeth from cavities. Over 80% of cavities are on the chewing surfaces of back teeth. There is a direct relationship between sugary drink consumption and dental cavities.
School-based education and case management	Support dedicated SFUSD oral health staff to implement school-based health preventive education and dental care coordination programs within SFUSD schools serving high risk target populations. SFUSD oral health staff are key partners in Cavity Free SF, SF's local oral health coalition.
INFRASTRUCTURE	
Marketing/Promotion/Outreach	Funds to DPH/CBOs/Private media firms to support media and communications that include 1) grassroots, community-driven awareness campaigns about the intent of the SDDT and the impact of the allocated funds; 2) city-wide communications campaign highlighting the impact and importance of the SDDT; 3) communications materials for merchants; and 4) and communicate the harmful impact of sugary drinks and healthy alternatives. Examples include community-driven, messaging, print, online, and social media campaigns. This also includes regular communication to SF Board of Supervisors, Mayor's Office, Board of Education and other elected officials via newsletters and other mechanisms.

Evaluation/Research/Data Support/Capacity Building	<p>A. RECREATION & PARKS PHYSICAL ACTIVITY & WELLNESS	
Peace Parks	To support staffing and supplies, including healthy food, for Peace Parks programs in target populations.
SVIP: Peace Parks Transportation	Transportation for Peace Parks participants
REQUITY: Outreach, Scholarships, recreation equity	Requity offers free dynamic, engaging, and culturally-relevant recreation programming to youth under 18 living in shelters, foster care, public housing, or in housing developments. Through a combination of onsite and hyper-local program, coupled with extensive outreach, Requity increases access to and participation in RPD's existing programs and scholarships by educating and informing families on what RPD can offer them.
LACTATION	To fund a breastfeeding coalition to organize collective efforts across San Francisco to enable increased breastfeeding among Priority Populations. This coalition will mobilize action on policy, systems and environmental (PSE) changes to increase breastfeeding rates and duration, leveraging community strengths, and tackling structural barriers to reduce inequities to breastfeeding support. This would include funding for backbone support to: engage community stakeholders in a strategic planning and engagement process to develop a framework for short and long term goals embedding in principles of equity; help align breastfeeding support services in San Francisco including hospital, outpatient, and community based services to improve access to breastfeeding support; and provide technical assistance to partnering agencies (such as child care centers and businesses with less than 50 employees) to operationalize and implement breastfeeding friendly policies and practices. Funding will also support community based organizations that are already supporting breastfeeding.

* Funding should support programs and services that increase financial resources to purchase healthy food; access to healthy fruits and vegetables while minimizing processed foods for high-risk communities; foods that are affordable and convenient; and programs that support the consumption of healthy foods including the ability to prepare and store meals and the knowledge of basic nutrition, food safety and cooking. Priority programs should incorporate a community-based food security perspective and have demonstrated increased ability of food insecure residents to purchase, access, and consume consumption of healthy, fresh, low-to-no cost and culturally appropriate foods, including but not limited to food vouchers/incentives, transportation and delivery and prepared foods.

*The Board of Supervisors made a series of adbacks in the FY 17-18 budget. When the Board of Supervisors makes changes to the Mayor’s budget, some of these changes are “adbacks” denoting the Board’s decision to add funds back for a particular service. Adbacks become part of an agency’s baseline budget.
