enforce state laws and regulations at solid waste sites within its jurisdiction. SFR Recovery, Inc operates as a Construction and Demolition Processing site under SWIS# [38-AA-0024](#) issued by the LEA.

Description of the Project

SFR Recovery, Inc. is approximately 16,000 square feet of warehouse and office space and 12,000 of open area. SFR Recovery, Inc. is open to receive construction, demolition, and inert debris (CDI) debris Monday to Sunday 6:00am to 7:00pm. On August 24, 2023, the LEA received the Registration Permit application package from SFR Recovery, Inc. Facility is proposing to expand storage, handling, transfer, and processing of CDI material to the outdoor open area, incorporate one diesel operated mobile shredding machine, and incorporate one cardboard baler to the existing facility as a Medium Volume Construction Demolition and Inert Debris Processing Facility. In accordance with California Code of Regulations, Title 14, Chapter 3, Section [17383.5](#), Medium Volume CDI Debris Processing Facility means that the site receives less than 175 tons of any combination of CDI and Type A inert debris per operating day for the purposes of storage, handing, transfer, or processing. SFR Recovery, Inc. intends to open to the public upon the issuance of a Registration Permit.

LEA's Determination

The LEA determined that the Registration Permit application package is complete and correct and meets the filing requirements pursuant to 14 CCR § [18104.1](#). The Registration Permit application package is accepted for filing on September 19, 2023. The permit will be issued five (5) days from finding the application complete and correct or on or around September 22, 2023.
