Project Description and Location

The San Francisco Municipal Transportation Agency (SFMTA) proposes to implement transit and pedestrian safety improvements along the 38 Geary/38R Geary Rapid Muni route on Geary Boulevard in the Richmond District between Stanyan Street and 34th Avenue. The inbound direction for this route is east towards downtown, and the outbound direction for this route is west towards the Richmond District. Project elements would include:

- Installing transit lanes between 28th and 15th avenues.
- Relocating 10 bus stops, removing two closely spaced stops, and extending some bus stop lengths to improve transit performance and accessibility.
- Pedestrian safety improvements, including transit and pedestrian bulb-outs, daylighting, expanded median refuges, and turn restrictions at key intersections.
- Traffic signal upgrades to improve signal visibility, as well as to upgrade communications from wireless to fiber-optic technology.

To accommodate the new transit lanes, extended bus stops, bulb-outs and daylighting, the nearby on-street parking supply would be reduced. To improve loading access at the curb, new and consolidated commercial and passenger loading zones would be installed.

Determination

The City and County of San Francisco decided to carry out or approve the project on August 15, 2023, when the SFMTA Board of Directors approved the project. The project was officially approved on September 15, 2023, when no appeal of the statutory exemption was filed during the 30-day appeal period. A copy of the documents may be examined at the Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103 in file no. 2023-002038ENV.
