Surveillance Technology Goals

8.1 Has the surveillance technology been effective at achieving its identified purpose?

Partially

8.2 In 3-5 sentences, please explain how the technology has or has not been effective

The library asserts that using passive low-frequency RFID technology for inventory control is not considered surveillance technology because it doesn't collect or process patron information. Instead, it enhances customer service by expediting self-checkout and circulation tasks, allowing both patrons and staff to handle multiple items simultaneously. Additionally, RFID security gates enhance security and streamline the alarm response process, reducing the need to manually check each item against patron records.
