Secretary Stacy Youngblood,

Dear President Elias and Commissioners,

In January of 2023, the Police Commission voted in favor of DGO 9.07, a comprehensive policy to prohibit racially-biased traffic stops in San Francisco. Over one year later, the policy is still in meet and confer.

There is no reason for these discussions to be taking this long. Racial disparities have not changed in traffic stops and it is time for creative policy solutions that do not reinforce the status quo. San Francisco mirrors the state and nation in over-policing communities of color via pretextual stops. Since 2018, SFPD has stopped Black people at least six times the rate of white people, searched Black people at least 10 times the rate of white people, and were at least 12 times more likely to use force on Black people than white people.

Each time the Police Commission meets and does not bring the policy back for final approval, it allows for this harm against communities of color to continue. Meet and confer has been going on for months, with plenty of time to reach agreement and move forward. That is why I am asking you to bring DGO 9.07 back for a final vote and implementation at the next Police Commission meeting.
