San Francisco Department of Public Health

Grant Colfax. MD Director of Health

Notification to Department of Public Health Continuity of Payment— Emergency Disruptions (COVID-19) (Complete one form per impacted facility address)

Nonprofit contractors deliver essential services to San Francisco residents on behalf of and funded by the City and County of San Francisco. Due to the public health emergency related to COVID-19, certain programs may be required to close or suffer other disruptions, which could have implications for cash flow, as the City typically only pays for actual services rendered. It is the City's intent to support the sustainability of nonprofit contractors by continuing to provide full or partial payment in the event of programmatic closures that are in accordance with official public health recommendations. The Controller's Office issued policy guidance to City departments and nonprofit service providers to help ensure continuity of payment in the event of disruptions related to COVID-19. The subject form is in coordination with this policy to provide the Department with essential information. View the policy at: http://openbook.sfgov.org/webreports/details3.aspx?id=2806. The policy may be updated periodically.

Please note that per Article 12 of your contract, a contractor's employees shall become emergency workers and participate in the emergency response of the Department of Public Health during a declared emergency. We are reliant upon your staff to continue to provide essential services, and to assist the Department in the City's disaster response.

<u>Instructions:</u> Please (a) complete the following information and (b) submit the form as indicated below. Submission of this form will serve as notification to the Department that your future cost reimbursement invoices may report reduced deliverables, or Fee-for-service invoices may not be based on actual units of service delivered, but a calculation to ensure stable monthly payments, e.g. 1/12th. <u>Please do continue to enter all units of service into Avatar, or other billing systems following normal procedures.</u> Consider this request approved and submit invoice templates accordingly, unless you are instructed otherwise.
