Project Description

The San Francisco Municipal Transportation Agency (SFMTA) proposes to implement pedestrian and bicycle safety improvements on 17th Street between Potrero and Pennsylvania avenues. The project would upgrade existing Class II bicycle lanes into Class IV bikeways using delineators (safe hit posts), concrete, or parking as

protection. Additional bike and pedestrian safety improvements include crossbikes, painted buffers with raised elements, painted corner treatments with raised elements, new STOP control, and new marked crosswalks.

Determination of Exemption

The City and County of San Francisco decided to carry out or approve the project on March 5, 2024, when the SFMTA Board of Directors approved the project. The project was officially approved on April 5, 2024, when no appeal of the statutory exemption was filed during the 30-day appeal period. A copy of the documents may be examined at the Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103 in file no. 2023-005762ENV.
