- No Effect Determination (From CDFW) **OR**
- Proof of Payment of EIR Fee

Project Description

The City and County of San Francisco (city) proposes the Ocean Beach Climate Change Adaptation Project. The project would address shoreline erosion, severe coastal storm and wave hazards, and sea level rise which threaten city infrastructure, coastal access and recreational facilities, and public safety. The project area generally encompasses the portion of San Francisco's Ocean Beach extending south from Sloat Boulevard to the northern edge of the Fort Funston bluffs, and the Great Highway from Sloat Boulevard to Skyline Boulevard, along with portions of Ocean Beach to the north and portions of Fort Funston to the south.

Major project components include: (1) permanently closing the Great Highway between Sloat and Skyline boulevards, and reconfiguring affected intersections and San Francisco Zoo parking access; (2) removing rock and sandbag revetments, and rubble and debris from the beach, and reshaping the bluff to provide a more gradual transition between beach and upland areas, and planting native vegetation; (3) constructing a multi-use trail, beach access stairway, coastal access parking, restrooms, and Americans with Disabilities Act improvements to existing trail segments and enhancing habitat; (4) constructing a buried wall to protect existing wastewater infrastructure from shoreline erosion; and (5) long-term beach nourishment (sand replenishment). The project is a collaborative, multi-agency initiative involving the San Francisco Public Utilities Commission (SFPUC), San Francisco Recreation and Parks, San Francisco Public Works, San Francisco Municipal Transportation Agency (SFMTA), and the Golden Gate National Recreation Area, a unit of the National Park Service. The city is also coordinating with the U.S. Army Corps of Engineers (Corps) on the potential for beneficially using Corps dredged sand for the project's beach nourishment program.

Determinations

The City and County of San Francisco decided to carry out or approve the project on October 31, 2023. The San Francisco Planning Commission certified the Final EIR on September 28, 2023. The San Francisco Public Utilities Commission decided to carry out or approve the project on October 10, 2023 (Resolution No. 23-0190), and the San Francisco Recreation and Park Department decided to carry out or approve the project on October 19, 2023 (Resolution No. 2310-011). The project was officially approved on October 31, 2023, when no appeal of the Final EIR was filed. On May 14, 2024, the San Francisco Board of Supervisors approved an ordinance amending the Park Code to close the Great Highway Extension from Sloat Boulevard to Skyline Boulevard to vehicles to allow for a multi-use trail and improve shoreline resilience as part of the project. This ordinance was signed by Mayor London Breed on May 24, 2024 (Ordinance No. 102-24). A copy of the document(s) may be examined at Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103 and in Board of Supervisors File No. 231075.

1. An Environmental Impact Report has been prepared pursuant to the provisions of CEQA. It is available to the public and may be examined at the Planning Department at the above address.
2. A determination has been made that the project in its approved form will have a significant effect on the environment.
3. Mitigation measures were made a condition of project approval for the project.
4. A mitigation and monitoring reporting program was adopted for this project.

5. A statement of overriding considerations was adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.
