Dear Chief Scott, Captain Harvey, and all SFPD officers,

Thank you for all your efforts re the aforementioned event. From my Dolores-fronted roof I observed the very professional, composed, organized and in-control SFPD maintaining order, preventing hooliganism, yet **WISELY** allowing a relatively well-behaved sportive event - **thanks to all the advance SFPD notifications and adequate supervision** (despite the sensationalist media's declarations of 'rebellious defiance' of law and order!). Luckily, there was no damage of any kind other than two participants' minor bodily injuries.

For any future events though, it'd be advisable to require a permitted event, with all its public safety provisions.

Dear Chief Scott, Supervisor Mandelman and staff, and all of SFPD:

Thank you for your help on Saturday in deterring a chaotic event. It was amazing to be able to sleep that night without hearing sideshows or fireworks taking place, and to drive around the next day and not see new graffiti or damage or trash to the neighborhood was a refreshing change from years past.

I know the newspapers are positing what happened like "Hillbomb takes place in spite of Police efforts," but those of us who live here know the truth... The crimes that usually come with these unsanctioned events did not occur because people were deterred because they knew a free-for-all atmosphere would not be tolerated.

My neighbors and I sincerely thank you for your efforts.

Sincerely,  
Marina Franco

Chief Scott, Captain Harvey, and Supervisor Mandelman,

Thank you for all your efforts yesterday, and the troubles you have to endure in your jobs! In case anyone hasn't seen the new Instagram post update from one of the so-called "organizers", here it is the link ([https://www.instagram.com/reel/C82r59Hy9R3/?utm\\_source=ig\\_web\\_button\\_share\\_sheet](https://www.instagram.com/reel/C82r59Hy9R3/?utm_source=ig_web_button_share_sheet)) and snapshot. Let's see if it will be indeed "cancelled"!

Dear Chief Scott, Captain Harvey, and Supervisor Mandelman:

'Just want to thank you for hosting the community meeting about the anticipated Dolores Hill Bomb. The event is inherently dangerous and has a history of chaos and trouble. I was aghast to hear that the proponents had been waiting for the city to organize the event, provide safety equipment and standby emergency care, and agree to suspend law enforcement beforehand.

A gentleman in the audience commented on the arrogance and irresponsibility of this attitude. It was especially galling to hear these expectations voiced by one of the mothers who is suing the city on her "child's" behalf.

I support the police and greatly appreciate your commitment to keeping our neighborhood safe.
