

Community Health Equity & Promotion Performance Objectives FY 2023-2024

CID #	Agency	Sexual & Drug User Health Services Program & Objectives
1000024733	IFR: Instituto Familiar de la	Health Access Point for Latinx
	Raza, Inc.	
		By end of the fiscal year, agency will provide detailed executive summary report of completed HAP Activities,
	Objective #1	including success, challenges, barriers, and new strategies to reach community.
	<u></u>	By end of the fiscal year, agency will have attended required Health Access Point (HAP) monthly network meeting
	Objective #2	(occurs on 4th Thursday of each month), measured by CHEP SOC meeting enrollment log.
		By end of the fiscal year, agency will have uploaded required HAP quarterly client level data and qualitative
	Objective #3	narrative submissions by specificized due date. Agency should have submitted a total of 4 data sets for the curren
		fiscal year (not including any data resubmissions due to error corrections).
	Objective #4	By end of the fiscal year, agency will provide documentation of onsite overdose response policy (policy language
	- ,	and guidance provided to agency by CHEP-SOC).
	Objective #5	By end of the fiscal year, agency will provide completed client satisfaction survey results to CHEP System of Care
	-	Budget, Contracts, & Communications Manager. HAP Performance Objectives for engagement with End Hep C SF: HAP representative will participate in at
		least three PTL workgroup meetings in the 12-month period. If HAP has internal clinical services, a designated
	Objective # 6	clinician may participate in one Treatment Access (TA) meeting in place of one of the PTL meetings (Some HAPs
		may implement this objective as of FY24-25)
		HAP Performance Objectives for engagement with End Hep C SF: Identify one staff person who works directly
		with the hepatitis C (HCV) program (direct services staff or HCV program lead) to represent the HAP in End Hep C
	Objective # 7	SF's (EHCSF) Prevention, Testing & Linkage (PTL) work group (Some HAPs may implement this objective as of
		FY24-25)
		Harm Reduction Services(Applicable for Tier B Syringe Program): By the end of each fiscal year each Tier B
	Objective # 8	syringe program will designate a staff person to be their Supply Champion, and Supply Champions will attend
	Objective # 8	quarterly meetings convened by the Office
		of Overdose Prevention and CHEP
1000024732	Rafiki Coalition for Health and	Capacity Building Health Access Point for Black African American Community
	Wellness	
		By end of the fiscal year, agency will provide detailed Executive Summary Report of completed Capacity Buildin activities, along with detailed implementation design for Health Access Point Services starting July 1, 2024. Report
	Objective #1	should also include, success, barriers, challenges, how agency has overcome challenges, or plan to overcome
		challenges, and updated staff and sub-contractors assigned to Health Access Point services.
		By end of the fiscal year, agency will have identified Health Access Point sub-contractors that will provide Health
	Objective #2	Access Point services, along with executed sub-contractor MOU agreements for FY24-25 Fiscal Year.
		By the end of the fiscal year, agency will have identified lead data manager, responsible for quarterly data
	Obie stive #2	submissions, along with data collection and submission plan that provides details on how the agencies plans to
	Objective #3	collected client level data, manage HAP data, and required quarterly data submission for upcoming fiscal year 24-
		25.
	Objective # 4	By end of the fiscal year, agency will have attended required Health Access Point (HAP) monthly network meeting
		(occurs on 4th Thursday of each month), measured by CHEP SOC meeting enrollment log.
	Objective # 5	By the end of the fiscal year, agency will provide documentation of onsite overdose response policy.
	Objective # 6	By end of the fiscal year, agency will provide completed client satisfaction survey results to CHEP System of Care
	,	Budget, Contracts, & Communications Manager.
		HAP Performance Objectives for engagement with End Hep C SF: HAP representative will participate in at
		locat three DTL workgroup meetings in the 12 ments period. If UAD has internal alinias convises a designated
	Objective # 7	least three PTL workgroup meetings in the 12-month period. If HAP has internal clinical services, a designated
	Objective # 7	clinician may participate in one Treatment Access (TA) meeting in place of one of the PTL meetings (Some HAPs
	Objective # 7	clinician may participate in one Treatment Access (TA) meeting in place of one of the PTL meetings (Some HAPs may implement this objective as of FY24-25)
		clinician may participate in one Treatment Access (TA) meeting in place of one of the PTL meetings (Some HAPs may implement this objective as of FY24-25) HAP Performance Objectives for engagement with End Hep C SF: Identify one staff person who works directly
	Objective # 7 Objective # 8	clinician may participate in one Treatment Access (TA) meeting in place of one of the PTL meetings (Some HAPs

	Objective # 9	Harm Reduction Services(Applicable for Tier B Syringe Program): By the end of each fiscal year each Tier B
		syringe program will designate a staff person to be their Supply Champion, and Supply Champions will attend
		quarterly meetings convened by the Office
		of Overdose Prevention and CHEP
1000024731	San Francisco Community	Health Access Point for Transwomen: STAHR (San Francisco Transgender Alliance for Health Resources)
	Health Center (SFCHC)	
		By end of the fiscal year, agency will provide detailed executive summary report of completed HAP and Trans
	Objective #1	Women Capacity Building Activities, including success, challenges, barriers, and new strategies to reach
		community.
	Objective #3	By end of the fiscal year, agency will have attended required Health Access Point (HAP) monthly network meetings
		(occurs on 4th Thursday of each month), measured by CHEP SOC meeting enrollment log.
		By end of the fiscal year, agency will have uploaded required HAP quarterly client level data and qualitative
	Objective # 4	narrative submissions by specified due date. Agency should have submitted a total of 4 data sets for the current
	Objective # F	fiscal year (not including any data resubmissions due to error corrections).
	Objective # 5	By the end of the fiscal year, agency will provide documentation of onsite overdose response policy.
	Objective # 6	By end of the fiscal year, agency will provide completed client satisfaction survey results to CHEP System of Care,
	,	Budget, Contracts, & Communications Manager.
		HAP Performance Objectives for engagement with End Hep C SF: HAP representative will participate in at
	Objective # 7	least three PTL workgroup meetings in the 12-month period. If HAP has internal clinical services, a designated
	-	clinician may participate in one Treatment Access (TA) meeting in place of one of the PTL meetings (Some HAPs
		may implement this objective as of FY24-25)
		HAP Performance Objectives for engagement with End Hep C SF: Identify one staff person who works directly with the barefilia C (IIC) person (direct equilibrium of the barefilia C (IIC)) person (direct equilibrium of the barefilia C (IIC)) and the barefilia C (IIC) and the baref
	Objective # 8	with the hepatitis C (HCV) program (direct services staff or HCV program lead) to represent the HAP in End Hep C
	-	SF's (EHCSF) Prevention, Testing & Linkage (PTL) work group (Some HAPs may implement this objective as of
		FY24-25)
	Objective # 0	Harm Reduction Services(Applicable for Tier B Syringe Program): By the end of each fiscal year each Tier B
	Objective # 9	syringe program will designate a staff person to be their Supply Champion, and Supply Champions will attend
1000024737		quarterly meetings convened by the Office of Overdose Prevention and CHEP Health Access point for API & API Transgender Women
1000024737	Alliance Health Project (AHP)	By end of the fiscal year, agency will provide detailed executive summary report of completed HAP Activities,
	Objective #1	including success, challenges, barriers, and new strategies to reach community.
		By end of the fiscal year, agency will have attended required Health Access Point (HAP) monthly network meetings
	Objective #2	(occurs on 4th Thursday of each month), measured by CHEP SOC meeting enrollment log.
	-	By end of the fiscal year, agency will have uploaded required HAP quarterly client level data and qualitative
	Objective #3	narrative submissions by specified due date. Agency should have submitted a total of 4 data sets for the current
		fiscal year (not including any data resubmissions due to error corrections).
		By end of the fiscal year, agency will provide documentation of onsite overdose response policy (policy language
	Objective #4	and guidance provided to agency by CHEP-SOC).
		By end of the fiscal year, agency will provide completed client satisfaction survey results to CHEP System of Care,
	Objective # 5	Budget, Contracts, & Communications Manager.
		HAP Performance Objectives for engagement with End Hep C SF: HAP representative will participate in at
	01.1	
	Objective # 6	least three PTL workgroup meetings in the 12-month period. If HAP has internal clinical services, a designated
	Objective # 6	least three PTL workgroup meetings in the 12-month period. If HAP has internal clinical services, a designated clinician may participate in one Treatment Access (TA) meeting in place of one of the PTL meetings (Some HAPs

		FY24-25)
	Objective # C	Harm Reduction Services (Applicable for Tier B Syringe Program): By the end of the fiscal year, each Tier B
	Objective # 8	syringe program will designate a staff person to be their Supply Champion.
	2 11 // // 2	Harm Reduction Services: By the end of the fiscal year, Tier B syringe program Supply Champions will attend
	Objective # 9	quarterly meetings convened by the Office of Overdose Prevention and CHEP
1000024734	SFAF	Health Access Point for Gay MSM Community
		By end of the fiscal year, agency will provide detailed executive summary report of completed HAP Activities,
	Objective #1	including success, challenges, barriers, and new strategies to reach community.
	<u></u>	By end of the fiscal year, agency will have attended required Health Access Point (HAP) monthly network meetings
	Objective #2	(occurs on 4th Thursday of each month), measured by CHEP SOC meeting enrollment log.
	,	
	Objective #2	By end of the fiscal year, agency will have uploaded required HAP quarterly client level data and qualitative
	Objective #3	narrative submissions by specified due date. Agency should have submitted a total of 4 data sets for the current
	Objective #3	narrative submissions by specified due date. Agency should have submitted a total of 4 data sets for the current fiscal year (not including any data resubmissions due to error corrections).
	Objective #3 Objective # 4	narrative submissions by specified due date. Agency should have submitted a total of 4 data sets for the current

	<u></u>	By end of the fiscal year, agency will provide completed client satisfaction survey results to CHEP System of Care,
	Objective # 5	Budget, Contracts, & Communications Manager.
	Objective # 6	HAP Performance Objectives for engagement with End Hep C SF: HAP representative will participate in at least three PTL workgroup meetings in the 12-month period. If HAP has internal clinical services, a designated clinician may participate in one Treatment Access (TA) meeting in place of one of the PTL meetings (Some HAPs may implement this objective as of FY24-25)
	Objective # 7	HAP Performance Objectives for engagement with End Hep C SF: Identify one staff person who works directly with the hepatitis C (HCV) program (direct services staff or HCV program lead) to represent the HAP in End Hep C SF's (EHCSF) Prevention, Testing & Linkage (PTL) work group (Some HAPs may implement this objective as of FY24-25)
	SFAF	HAP Network Capacity Building: Integration of HIV/STI/HCV Testing
	Objective # 1	By the end of the fiscal year, agency will provide detailed executive summary report of completed Integrated HIV/STI/HCV testing capacity building activities implemented within the HAP Network. Report should be inclusive of challenges, success, barriers, how agency has addressed challenges/barriers, and capacity building plans for the following fiscal year.
	SFAF	The Black Health Clinical Assistant Program: Rafiki Capacity Building
	Objective # 1	By the end of the fiscal year, agency will provide detailed executive summary report of completed Rafiki Black/AA HAP capacity building activities implemented. Report should be inclusive of challenges, success, barriers, how agency has addressed challenges/barriers, and capacity building plans for the following fiscal year.
	SFAF	Training Academy & Clinical Assistant Program (Training Academy ending as of 06/30/2024)
	Objective # 1	By the end of the fiscal year, 30 unduplicated participants will engage in CHW-TA training, and complete 270 hours of training.
	Objective # 2	By the end of the fiscal year, measured via participant surveys and observation, participants will demonstrate increased knowledge of best practices related to community health program implementation and engagement.
	Objective # 3	By the end of the fiscal year, Five organizations within the HAP network will participate in Community Health Worker Training Academy by sending at least 2 –5 employees to available trainings.
	Objective #4	By the end of the fiscal year 20 individuals will complete the HIV test counselor certification process through 2 trainings, and report increased knowledge of sexual health and basic competencies around conducting test counseling sessions.
	Objective # 5	By the end of the fiscal year, program will hire and onboard 5 clinical interns.
	Objective # 6	By the end of the fiscal year, three of the five clinical interns will enter paid community health opportunities within 6 months of completing the program.
100008933	Facente	Consulting Programs
	Objective # 1	By the end of the fiscal year, Shelley Facente of Facente Consulting will prepare a final report summarizing project activities and accomplishments, as measured by submission of the final report.
100002608	Glide	HIV/HCV Linkage to Care & Harm Reduction Programs Performance Objectives (Both Programs should be measured together based on objectives below)
	Objective # 1	By the end of the fiscal year 100 clients living with HCV will have conducted an intake and enrolled into Glide's HCV Navigation and Linkage services.
	Objective # 2	By the end of the fiscal year, 85 clients not already engaged in HCV treatment will have attended at least one HCV related care appointment, as measured by SFDPH data collection forms By the end of the fiscal year, 575 individuals at high risk for HCV will have been screened for HCV, as measured
1000013476	Objective # 3 Harm Reduction Coalition	by the SFDPH HCV Screening Forms submitted to SFDPH each month. Drug Overdose Prevention Program
1000013476	Objective # 1	By the end of the fiscal year, NHRC/HRTI will submit quarterly progress reports to CHEP
	Objective # 1	By the end of the fiscal year, NHRC/HRTI will submit a final report to CHEP that includes successes, challenges, and recommendation
1000002612	HR360	HCV Linkage to care
	Objective # 1	By the end of each fiscal year, the HCV Linkage Program staff will have outreached to 100% of clients with an active HCV infection, as identified by provider referral or through program's HCV test results, to offer enrollment in the HCV Linkage Program.
	Objective # 2	By the end of each fiscal year, 70% of clients enrolled in the HCV Linkage Program will have initiated HCV treatment, as measured by client activity logs and case notes and reported to SFDPH through the quarterly HCV Linkage Report.

	Objective # 3	By the end of each fiscal year, 70% of clients who initiated HCV treatment more than 8 weeks prior to the end of the fiscal year will have completed the HCV treatment course, as measured by client activity logs and case notes
	Objective # 4	and reported to SFDPH through the quarterly HCV Linkage Report. By the end of the fiscal year, 70% of clients who completed HCV treatment more than 12 weeks prior to the end of the fiscal year will have achieved SVR12, as measured by completed HCV RNA/viral load lab work and reported to
	Objective # 5	SFDPH through the quarterly HCV Linkage Repot. By the end of the fiscal year, a data reporting system will be implemented to share line listed client-level data with SFDPH's CHEP program staff, and client-level data will be submitted for all clients enrolled in HCV Linkage
	Objective # 6	Program during the fiscal year. By the end of the fiscal year, aggregate quarterly data totals will have been shared with SFDPH's CHEP program staff, using the HCV Linkage Report
10000017931	NAHC	Hozhoni Project
	Objective # 1	By the end of the contract term, Hozhoni will conduct a total of 60 targeted HIV rapid tests to MSM, MSM-IDU, and TFSM clients of NAHC.
	Objective # 2	By the end of the contract term, 65% of HIV-negative/unknown status MSM, MSM-IDU, and TFSM attendees of Hozhoni groups will report having had an HIV test in the prior 6 months, as measured by self-report and data on linkage to testing.
	Objective # 3	At six-month follow-up 70% of clients who initiated PrEP and for whom follow-up data is available will report still being on PrEP by the end of the contract term, 80% of people testing HIV-positive at NAHC will be offered partner services, as documented by their LINCS case report form. Their partners will also be offered NAHC services.
	Objective # 4	By the end of the contract term, 90% of HIV-positive Hozhoni clients who have completed case management intake and who have not seen an HIV primary care physician will be offered linkage to care by their prevention case manager, within six months of intake/ onset of case management.
	Objective # 5	During the contract term, Hozhoni will distribute 4000 condoms (male/female) annually.
1000020773	SFAF	Mobile Contingency Management for Homeless clients & Fentanyl Treatment Street Outreach
	Objective # 1	At least 70% of clients who completed at least 8 weeks of the program agreed that they learned new skills to address their substance use goals as documented by the client satisfaction survey data
	Objective # 2	At least 60% of clients who completed at least 8 weeks of the program agreed that they either stopped or reduced their use of stimulants.
(0000000000	Objective # 3	At least 70% of clients who completed at least 8 weeks of the program agreed that they achieved their harm reduction use management goals as documented by the client satisfaction survey data
100009850	Westside	HIV Testing in Community Health Center
	Objective # 1	All HIV-negative/unknown status clients will be offered an HIV test.
	Objective # 2	At least 70% of HIV negative/unknown status clients of supported programs will report having had an HIV test in the prior 6 months, as measured by self-report and data on linkage to testing.
4000000	Objective # 3	By end of contract term, agency will upload all testing data per CHEP Data Management Collection and Submission Guidelines
100009855	UCSF DSAAM	HIV/HCV Testing & Treatment Support
		By the end of the contract term, 95% of HIV-infected patients with detectable HIV viral load will receive at least one
	Objective # 1	treatment adherence intervention by a medical or nursing provider within a month from the time that the detectable viral load is discovered.
	Objective # 1 Objective # 2	
		 viral load is discovered. By the end of the contract term, 90% of HIV-infected patients entering methadone maintenance who have not seen an HIV primary care provider in the prior six-months will be offered linkage or re-linkage to care. By the end of the contract term, 100% of patients who have new positive HIV test results are offered linkage to HIV care at the time of test results disclosure to the patient.
	Objective # 2	 viral load is discovered. By the end of the contract term, 90% of HIV-infected patients entering methadone maintenance who have not seen an HIV primary care provider in the prior six-months will be offered linkage or re-linkage to care. By the end of the contract term, 100% of patients who have new positive HIV test results are offered linkage to HIV
	Objective # 2 Objective # 3	 viral load is discovered. By the end of the contract term, 90% of HIV-infected patients entering methadone maintenance who have not seen an HIV primary care provider in the prior six-months will be offered linkage or re-linkage to care. By the end of the contract term, 100% of patients who have new positive HIV test results are offered linkage to HIV care at the time of test results disclosure to the patient. By the end of the contract term, 95% of patients of negative or unknown status in treatment will be offered an HIV
	Objective # 2 Objective # 3 Objective # 4	viral load is discovered. By the end of the contract term, 90% of HIV-infected patients entering methadone maintenance who have not seen an HIV primary care provider in the prior six-months will be offered linkage or re-linkage to care. By the end of the contract term, 100% of patients who have new positive HIV test results are offered linkage to HIV care at the time of test results disclosure to the patient. By the end of the contract term, 95% of patients of negative or unknown status in treatment will be offered an HIV test. By the end of the contract term, 95% of patients with a negative or unknown HCV status at intake will be offered an
	Objective # 2 Objective # 3 Objective # 4 Objective # 5	viral load is discovered. By the end of the contract term, 90% of HIV-infected patients entering methadone maintenance who have not seen an HIV primary care provider in the prior six-months will be offered linkage or re-linkage to care. By the end of the contract term, 100% of patients who have new positive HIV test results are offered linkage to HIV care at the time of test results disclosure to the patient. By the end of the contract term, 95% of patients of negative or unknown status in treatment will be offered an HIV test. By the end of the contract term, 95% of patients with a negative or unknown HCV status at intake will be offered an HCV test. By the end of the contract term, 95% of patients with a negative or unknown HCV status will be offered an HCV test.

	Objective # 1	By the end of the fiscal year, DeLIVER Care program will conduct 300 hepatitis C (HCV) screening tests, as measured by SFDPH HCV Testing data collection forms submitted to SFDPH each quarter
	Objective # 2	By the end of the fiscal year, DeLIVER Care program will conduct 100 HCV RNA tests, as measured by SFDPH HCV Testing data collection forms submitted to SFDPH each quarter.
	01.5 /5 // 0	By the end of the fiscal year, 30 clients will have attended the first HCV medical appointment with a DeLIVER Care
	Objective # 3	provider, as measured by DeLIVER outreach summary sheets.
	Obie etime # 4	By the end of the fiscal year, 30 clients who attended an initial HCV medical appointment will have initiated HCV
	Objective # 4	treatment, as measured by DeLIVER outreach summary sheets
		By the end of the fiscal year, 30 clients will have completed their HCV treatment course, as measured by the
	Objective # 5	DeLIVER outreach summary sheets.
		By the end of the fiscal year, a data reporting system will be implemented to share line listed client-level data with
	Objective # 6	SFDPH's CHEP program staff, and client-level data will be submitted for all clients who received HCV testing
		and/or HCV treatment during the fiscal year
		By the end of the fiscal year, aggregate quarterly data totals will have been shared with SFDPH's CHEP program
	Objective # 7	staff, using the HCV Linkage Report.
