6. Human Services Agency (HSA) SDDT Funded Entity Presentation, Cindy Lin, Citywide Food Access Manager, Susie Smith, Deputy Director, Policy, Planning and Public Affairs, and Shalini Rana, Health Policy Advisor, Mayor's Office [Discussion and Possible Action] – 45 minutes

Co-chair shared that some of the SDDTAC questions for HSA are no longer relevant and will share why and clarify.

Shalini Rana shares context and background. SF is experiencing a large deficit and in developing the budget for current and next year, the Mayor had to make challenging choices. One priority was to maintain direct service particularly in the food space and understand that it also overlaps with the work of soda tax funded work. It is also part of HSA's charge as well and the portion of the soda tax funds was allocated to HSA to do that work. HSA holds the largest portion of that food security work and the city wanted to make sure that the dollars were going to reach communities most impacted by food insecurity and maximizing on the infrastructure that was already put into place. HSA has a broader food security strategy with funding from federal, state and local and matching funds they are leveraging. Some of the priorities and boundaries of the soda tax committee work is not applicable for HSA. The HSA presentation showcases the strategic endeavors they have been doing and have already encumbered those dollars and it is oriented differently.

Cindy Lin shares that HSA's role within the city is to:

- Support individuals, families and communities with food, health care, financial, employment, child care, in-home and protective services
- Main funder of city's food resources
- FEMA's Emergency Support Function #6 Mass Care, Housing, and Human Services, focusing on essential services such shelter and food

HSA has released over 10 RFPs and putting funds into the community for community to address some of the gaps HSA has been learning. Funding goes directly to HSA programming and not administrative costs. HSA funds: Vouchers for Veggies/EAT SF (Purchasing Power Programs), SF New Deal (Supplemental Meal Services), Friends of Alemany Farms, Florence Fang Community Farm, SF Housing Development Corp for Peacock Lounge, Farming Hope, China YMCA (Community Food Production), Neighborhood Based Grocery Access, and piloting D10 Community Market.

HSA highlighted the work specifically of Booker T. Washington Community Service Center, Delores Street Community Services/Mission Action and Chinatown YMCA. CFAT's client make up FY 21- 22: Asian or Pacific Islander 60%, Latinx or Hispanic 26%, Black/African American 8%, White 5%, Native American 1% and Other <1%.

Upcoming HSA efforts: funding cycle coming to an end and RFP will be released soon, continue to support food access and continuing to advocate for local, state, and federal funding and policies to support the work.

SDDTAC comments/questions:

## San Francisco Department of Public Health

Dr. Grant Colfax  
Director of Health

City and County of San Francisco  
London N. Breed  
Mayor

Interested in knowing where the soda tax funds went specifically and understanding what education towards the goals of SDDTAC are being implemented and populations that are being impacted by the beverage industry. Cindy responded that the \$5.2 Mil from soda tax does not specifically fund any programs but is part of the portfolio to enhance the work. SDDTAC and HSA can we collaborate on RFPs, however it has yet to be released.

Funds are continuing the portfolio, so are they are able to serve more people? Shalini responded that due to the city deficit, the soda tax funds helped to prevent further cuts and every year there was in an increase individuals being served. Federal and state cuts were not just food related.

Origin of this department, started the COVID funds and as it went away, or was it a combo of covid funds and general fund. Shalini responded that HSA has been doing this work prior to COVID and supplemented with general fund to support food security and is a priority of the Mayor. Cindy shared that the education of healthy eating, etc and a small portion of the grants fund education through the grantees. Education is also done through large scale events of grantees.

How can HSA work with organizations funded by soda tax previously and/or plan for it? Shalini responded that the Mayor's Office provided guidance for enhancing the HSA work. Urge SDDTAC to do the advocacy when the next budget cycle is out for SDDTAC budget recommendations.

When funding was pulled from soda tax was there funds that were also pulled from city departments, was it equal or based on each agency budget? Shalini responded the budget cut was across the board from every city agency, the amounts may be different.

In moving forward, how we can collaborate and partner. The public comes along with us as the SDDTAC as collaborators. There is a door open during our meetings and welcome synergy.

### Public Comments:

Uzuri Pease Green – As a non-profit, who has been doing food security before COVID and thereafter for funds to be taken after 1<sup>st</sup> year and doing food security to many families and referring to D10 also. What part of Potrero Hill and who did you speak to? This contract was supposed to be for 3 years and we continue to do the work but it is challenging with less people. How did Mayor's Office figure that out and those of us who worked on this and working hard and take \$5.2Mil from the work we were already doing to support our communities. This is frustrating and confusing when the Mayor's Office did not think of us who are already and still doing this work. 700 turkeys are being provided, having a community garden and distributing food bags so I don't know why and confused.

Vanessa Bohm – One of the oral health taskforces that was defunded. Appreciate presentation but have to say that is what is already being done by community-based organizations. When CBOs got defunded, HSA started a new RFP process and how many years are they being funded for? And how long will it be for community-based organizations to get funded? Especially since there has already been work done in the community and is set in place. We hope that the SDDTAC still recommends supporting oral health taskforces.

Colleen Rivecca – Show respect for all the programs for providing support to the community. My comments are not to diminish all of the programs. In the Tenderloin, they working on the PSE

strategy for food security and to address poverty and the type of hunger that comes from poverty. Folks in our community appreciate food distribution. The people appreciate being included and a part of the policy, systems and environmental change approaches that they can articulate what the problems there are that are creating their hunger and to be part of that solution. Those types of programs are the ones that the Mayor Office decide to reallocate, take funds away to in order to fund direct food service from HSA. So the shade is not on the programs, we need to provide these rich services all together. The community is concerned because decisions were made before the budget was announced and not when budgets were asked to make changes. This is making these programs and organizations pitted against one another.

Gabriela Castellanos – CARECAN. It is a gross misuse of soda tax funding, to backfill a city department, when organizations who were already funded and already had boots on the ground working with these communities. It is lacks foresight to defund education to the community that needs it so much.

Angelica Cabande – Education and outreach is important. The city passed the language access support ordinance. Many of these organizations provide these programming services in language. Wanting to uplift the language access ordinance for hard to reach constituents and to understand the different harms of sugary drinks. We can't forget the education piece as this is a multi-issue approach that we need to have this and SDDT emphasizes education as well.

Saeeda Hafiz – If the RFP hasn't happened and if we have had grantees that have gone through the DPH RFP process. It would be nice to give consideration for those previous applications, if there is a whole new RFP going out, who have received SDDT funding and fits in the purview of HSA and within collaboration with SDDTAC.

## 7. DPH Staff Report [Discussion and Action] – 15 minutes

- a. Recruitment for SDDTAC Member Applicants  
Application and flyer for SDDTAC Membership 2025 – 2027 term is available on SDDTAC webpage.  
[Sugary Drinks Distributor Tax Advisory Committee | San Francisco SDDTAC Recruitment Flyer All Seats.pdf](#)
- b. SDDT Evaluation Report Update  
SDDT evaluation report is currently being developed by DPH (CHEP and CDS teams) and anticipates presenting to the SDDTAC at the December SDDTAC meeting.
- c. Overview of SDDT Budget Recommendations Process  
Staff provided overview of SDDT budget recommendation process for members. SDDAC recommends budget allocations for two fiscal years. Subcommittees review, discuss and propose their final budget recommendations to the SDDTAC and will finalize budget recommendations for the Mayor and Board of Supervisors at the February 2025 SDDTAC meeting.

- d. One Time Funding for Healthy Communities Grantees FY 24-25  
DPH identified one-time funding that allowed all 6 HC grantees to get some level of funding. In the end, none of the organizations received the full expected funding. The budget cuts delayed the renewal of the contract with SF Public Health Foundation. The contract is now in process and we expect that Healthy Communities grantee invoices will be paid.

Member asked how SDDTAC with DPH forge relationship with HSA to collaborate. Staff responded that from what was discussed today, hopeful for some good collaboration, and being persistent on reaching out monthly for progress and updates. There is interest on both sides to collaborate on upcoming HSA RFP process. We will follow up HSA and keep SDDTAC abreast.

8. BREAK – 5 minutes
9. SDDT Data Brief 2024 Vote [Discussion and Action] 15 minutes

Member shared draft SDDT 2024 Data Brief. The brief highlights 3 focus areas: impact of sugary drinks on SF public health, sugary drink consumption among SFUSD students, beverage sales and pricing in SF. The data report this year is in a brief format, since data does not change much from year to year, possibly every 5 years a full data report will be published. Data brief will be included as part of the SDDTAC annual report to the Mayor and Board of Supervisors. Data brief was approved at the data & evidence subcommittee level and proposing the SDDTAC to approve data brief.

Jamey motions to approve SDDT 2024 Data Brief. Chester seconds. 11 votes, motion passes.

10. Subcommittee Update [Discussion and Possible Action] 15 minutes
  - a. Co-Chair Update - December SDDTAC meeting to keep at 3<sup>rd</sup> Wednesday December 18th; Co-chairs drafted letter to Mayor Elect Lurie and ensuring that SDDTAC has a clear line of communication from SDDTAC. Co-chairs submitted content for SDDTAC section of the November Shape Up SF Coalition newsletter.
  - b. Infrastructure - Discussed SDDTAC by-laws, there is no bylaw that SDDTAC members are required to participate in subcommittees especially with a new incoming SDDTAC cohort in March 2025. Members discussed the topic of SDDT grantee and funded entities' accountability for reporting and updates and possibly not providing recommendations to funds those who do not report and update.
  - c. Community Input - Content for newsletter, discussing the budget domains for budget recommendations process and including community input in the process.
  - d. Data & Evidence – Discussed SDDT 2024 data brief, reviewed preliminary findings and recommendations for the SDDT evaluation report and newsletter content.

11. Committee Member Proposed Future Agenda Items [Discussion and Possible Action] – 5 minutes
  - Strategy discussion on how SF is advocating on public charge on food access and families.

	Budget Descriptions
<b>COMMUNITY-BASED GRANTS</b>	City Departments should contract directly with CBOs through an RFP process managed through the Community Health Equity and Promotion (CHEP) Branch of the Department of Public Health. CBG should support community-based programs and services that address the health inequities of those most targeted by the beverage industry. Funding should go to Community Based Organizations (CBOs) and Faith Based Organizations (FBOs) for the following strategies:
Health education, food security, physical activity	<ol style="list-style-type: none"> <li><b>Health Education activities</b> including, chronic disease prevention, healthy eating and active living, tap water promotion, oral/dental health</li> <li><b>Physical Activity opportunities</b>, including: a) Dance and movement, sports, yoga, walking groups, biking, etc.; b) Changes to the built environment (ie sidewalks, streets, parks, buildings, etc) or safety of the built environment that facilitates increased physical activity and active transportation); and</li> <li><b>Food Security</b>, including: a) Community-based pantries, community-based hot meals, community kitchens and community home delivery services; b) Increased financial resources (i.e. wages, income, government nutrition supplements, vouchers, etc.); c) Changes to the built environment that facilitate food security; and d) Pursuit of institutional or local policies that facilitate food security; and e) Food Access, including community-based food systems, approaches, community-based pantries, community based hot meals, community kitchens and community home delivery services, etc.</li> <li><b>Water Promotion</b>, such as support for Spa Water Supplies, station maintenance/beautification, refillable water bottles to distribute to communities, water testing</li> <li><b>Community Based Participatory Research</b></li> </ol>
CBOs working with SFUSD	Recommend 3% of all CBO funding should go towards CBOs implementing programs/initiatives that take place in school settings. Funding to issue grants to CBOs should follow the above guidelines.
<b>SFUSD</b>	
School Food, Nutrition Ed	To improve the quality and appeal of school meals and support nutrition education to increase participation in school meal programs (for example: cooking and serving equipment, staff professional development, and innovative procurement and menu strategies to increase freshly prepared food). Funding will target schools with the largest populations of high-risk students that are disproportionately targeted by the sugary drinks industry.
Student Led Action	Support student led efforts to decrease consumption of sugary drinks and increase awareness of sugary drinks consumption among students, with focus on schools with the largest populations of high-risk students that are disproportionately targeted by the sugary drinks industry. SFUSD should provide to SDDTAC a proposal of how funding will be spent through student led action. Funding to also support adequate staffing for implementation.
<b>FOOD ACCESS</b>	
Healthy Food Purchasing Supplement	Support programs that increase financial resources to purchase healthy food such as vouchers and food purchasing incentives. These funds should be RFPed out to CBOs and FBOs. Funding should support programs and services that increase financial resources to purchase healthy food; access to healthy fruits and vegetables while minimizing processed foods for high-risk communities; foods that are affordable and convenient; and programs that support the consumption of healthy foods including the ability to prepare and store meals and the knowledge of basic nutrition, food safety and cooking. Priority programs should incorporate a community-based food security perspective and have demonstrated increased ability to food insecure residents to purchase, access, and consume consumption of healthy, fresh, low-to-no-

	cost and culturally appropriate foods, including but not limited to food vouchers/incentives, transportation and delivery and prepared foods.
Healthy Retail	Supporting small business to increase healthy food access in high risk and impacted communities and neighborhoods by: 1) supporting business operations; 2) promoting community engagement; and 3) improving the retail environment.
<b>ORAL HEALTH</b>	
Community task forces	Support development of community infrastructure such as oral health community task forces that incorporate diverse stakeholders for outreach, education, and interventions to address the oral health needs of children in high risk populations.
School-based sealant application	Support SF DPH oral health staff providing cavity-preventing sealants to high risk populations within SFUSD schools. Sealants protect the chewing surfaces of teeth from cavities. Over 80% of cavities are on the chewing surfaces of the back teeth. There is a direct relationship between sugary drink consumption and dental cavities.
School-based education and case management	Support dedicated SFUSD oral health staff to implement school-based oral health preventive education and dental care coordination programs within SFUSD schools serving high risk target populations. SFUSD oral health staff are key partners in CavityFree SF, SF's local oral health coalition.
<b>INFRASTRUCTURE</b>
