

I strive to be a responsive and accessible supervisor, from trash cans to broken benches. Every fix matters.

As supervisor, I've:

- Brought more police protection to the Sunset
- Fought to bring algebra back to middle schools
- Created night markets with community partners
- Reduced red tape for small businesses
- Secured funding for Sunset Boulevard greenway improvements
- Delivered relief funds to Taraval merchants impacted by street reconstruction

I ask voters to consider the entirety of my work — not only one issue.

I'm humbled by the views of residents who opposed Prop K. Many said they didn't feel heard in the process, and I take this feedback to heart.

I'm hearing loud and clear that we need safer residential streets and better traffic flow. We can all agree on this.

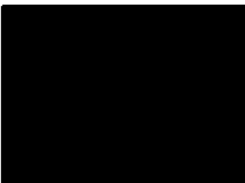

This recall is based on my support for putting Prop K to a democratic vote of the people. While voters have a right to recall elected leaders, this recall will not change the outcome or implementation of Prop K.

If you are considering signing, please reach out to my office first. I'm committed to working with you to address your concerns.

Together, let's create our best Sunset.
